THE COUNTY CONVENTION.

The Republicans of Allegheny county met in Convention yesterday to select delegates to represent them in the State Convention to be held on the 11th at Philadelphia, and in the National Convention at Chicago. Messrs. Russell Errett, W. S. Purviance, Jos. Walton, J. A. Butler, T. M. Bayne, and B. W. Morgan, Representative, and T. M. Marshall and H. S. Fleming, Senatorial Delegates, were appointed for the State Convention; while Messrs. A. M. Brown and J. K. Moorhead, with C. W. Batchelor and J. F. Slagle as their Alternates, will represent the XXIInd District at Chicago. A portion of the county being included with Armstrong and Butler counties in the XXIIIrd District, our conferees were instructed to vote for R. H. Davis, Esq., as one of the delegates from that district. And all the delegates were unanimously instructed to vote for General GRANT as the Presidential nominee, "first, last and all the time." The Convention declined to express any preference as to the Vice Presidency.

An effort was made to secure the adoption, by the Convention, of what is popularly known as the Crawford County System of making nominations, but a division of opinion was found in the Committee to which the matter was referred, resulting in a divided report, the majority recommending merely the engrafting of a system of registry of Republican voters upon the present delegate system, while the minority, concurring in the propriety of registration, proposed that all future nominations for county officers be made by the popular vote. After much discussion the whole matter was finally laid on the table, together with a proposition to limit future representation to one delegate from each district, and to have all balloting in Convention *viva voce*. The Convention very judiciously directed that the County Conventions in future be held on Tuesdays, as a more convenient day.

Resolutions were adopted re-affirming the position of the Republicans of Allegheny on National questions—their grateful sense of obligation to the soldiers and sailors of the Republic for their services and sacrifices in the war for the suppression of the rebellion—the inviolability of the national faith to the public creditors—the duty of diminishing taxation by economy in expenditures—again testifying to their abiding faith in the integrity, wisdom and patriotism of General GRANT, strengthened as it has been by his able and honest discharge of the duties of Secretary of War, and relying with confidence upon his fitness "as the man, above all others," to restore loyalty in the Government, with order and prosperity to the land—returning thanks to the House of Representatives in Congress for its courageous and faithful performance of its duty in impeaching the President, and declaring that the country will sustain the Senate in the rigid enforcement of the law against him,—and, also, thanking Secretary STANTON for the fidelity with which he had maintained the rights of the people under the law.

The Convention was largely attended, harmonious in its action, judicious in its selections, the resolutions have the old-fashioned ring of patriotism and spirit, and its entire proceedings, the full report of which is given in another column, cannot fail to be satisfactory to to the Republican masses of Allegheny County.

WE PLACE NO RELIANCE upon the rumor that the House Committee on Reconstruction is inclined to report favorably upon a resolution for the admission of Alabama. Under the terms of the Reconstruction Law, and in accordance with its express provisions, the people of that State have recently voted upon their new Constitution, and having seen fit to reject it, by a majority secured under no matter what frauds and evasions, the only remedy for the matter must be found either in the terms of the law itself, which has in some sort provided for a scrutiny of the vote, or by new legislation, such as in fact has already passed Congress and now awaits the President's signature. To repeal or amend the Reconstruction laws by indirection, or, worse than that, to refuse to accept any legally resulting vote of the people under those laws, by recognizing the minority instead of the majority, would make a hole in the law large enough for a dozen Presidents to drive through without any further obstruction. Re-assemble the Convention if need be, re-submit the same or any other Constitution to the people, and then, if it be adopted by a majority of the votes, it will be time for Alabama to come in, with due regard to the law in its form and in its essence. And this, we are quite confident, is all that our friends in Congress will sanction.

THE Northern Central Railway Company held their annual meeting in Baltimore on Friday last. According to the report of the talented and distinguished President, J. D. Cameron, Esq., we learn that the gross receipts for the past year were $3,690,868 16; expenses $2,478,709 45; net revenue $1,212,158.71. Compared with 1860 these figures show that the road is under most excellent management. In that year the entire receipts were only $964,621.80, and the net revenue $247,355 66. J. N. Du Barry, Esq., is the efficient General Superintendent, and our esteemed former townsman, Stephen Little, Esq., executes the figuring most accurately in the Auditing Department.

THE anthracite coal trade has opened for the spring with much spirit, an unusually severe winter having increased consumption, so that stocks are very low to meet the increased demands for manufacturing and steam marine purposes. The ruling rate of wages at the mines is a low one, and with an increased production no advance to consumers need be expected.

MR. GROW's friends in this neighborhood claim that the figures furnished by the Philadelphia *Press*, and published in the GAZETTE yesterday morning, do him injustice and are wide of the truth. They make the following estimate of the political complexion of the forthcoming State Convention: Curtin, 57; Grow, 45; Geary, 14; doubtful, 7; yet to elect, 10.

—The New York *World's* special, of Sunday night, says: Dispatches received from New Orleans to-night announce that General Hancock has asked to be relieved from command of the Fifth Military District. The President has received dispatches asking not to relieve General Hancock. The trouble has arisen from Grant's late order reinstating the New Orleans Councils over Hancock's order.

—The most terrible snow storm of the season (in that section) set in at Toledo, Ohio, on Sunday afternoon, from the northeast, and continued up to yesterday. Railroads were blocked more or less in consequence.

Pennsylvania Legislature.

Appropriation Bill in the House—Speaker Davis and the Free Railroad Bill—General Fee Bill in the Senate.

[Special Dispatch to Pittsburgh Gazette.]

HARRISBURG, March 2, 1868.

HOUSE OF REPRESENTATIVES.

The evening was occupied with the second reading of the appropriation bill, till very late. No other business was transacted.

Speaker DAVIS wishes it to be understood that he emphatically denies a report that he is, or was, in favor of the Senate Free Railroad bill. He is now, as he always has been, for the Free Railroad bill as it passed the House.

SENATE.

The Senate was occupied with the reading in place of unimportant bills and passing small private bills of no interest to Western Pennsylvania.

The new general fee bill passed at the second reading.

Adjourned.

GREAT SNOW STORM.

Unprecedently Violent—Interruption of Railway Travel—Accounts of it from Various Localities.

[By Telegraph to the Pittsburgh Gazette.]

OSWEGO, March 2.—A snow storm of unusual severity is prevailing. The railroads are blocked up with snow four to five feet deep.

PORTLAND, March 2.—The severest snow storm of the season is prevailing.

SPRINGFIELD, Mass., March 2.—The severest snow storm of the season began last night and continued incessantly, accompanied by a furious northerly gale. Trains were from one to two hours late.

ROCHESTER, N. Y. March 2.—A heavy snow storm prevails, with high wind. Railways are blockaded and several trains are fast in the snow. Only one train arrived to-day, that from Niagara Falls.

BUFFALO, N. Y., March 2.—The snow storm here has lasted twenty-four hours. All trains are behind time and eight trains have been abandoned. The Lake shore is clear of drifts, but trains are a little behind time. There are heavy drifts on the Central and Erie roads. The Canada road is entirely blockaded and traveling is suspended for the present. The storm has spent its fury and weather is moderating.

ALBANY, March 2.—Snowing all day; wind high. Drifts heavy; trains of all the roads two to three hours behind.

HAMILTON, Canada, March 2.—A severe snow storm commenced yesterday and is still raging. All trains are delayed and none are running on the London and Great Western Railroad.

HEAVY SNOW STORM.

CHICAGO, March 2.—The most violent storm of wind and snow that has visited Chicago for many years, commenced about three o'clock yesterday afternoon, and continued until four o'clock this morning. Street railways were effectually stopped by huge snow drifts. Some vessels in the river parted their lines and drifted about, without, however, serious injury. No trains left last night, and those due from the west this morning were considerably delayed. Dispatches from different parts of Wisconsin represent the storm as one of unusual violence. As far as heard from very little snow fell along the lines of railroads in Iowa.

NEW YORK.

SENATE.

The CHAIR presented a memorial of the members of the Grand Army of the Republic, setting forth that their services were not sufficiently recognized, and praying for a portion of the departmental offices.

Mr. CONKLING presented a memorial of the Buffalo Board of Trade, asking an appropriation to complete the improvement at the entrance of the harbor.

Mr. CATTELL presented a petition of soldiers of the war of 1812, asking to be placed on the same footing with soldiers of the late war. Referred.

Mr. WILSON, from the Military Committee, reported a bill for the settlement of Paymasters accounts.

The Senate passed the bill authorizing the Secretary of the Treasury to sell an unoccupied military site at Waterford, Pennsylvania.

IMPEACHMENT RULES.

On motion of Mr. HOWARD, the Senate proceeded to the consideration of the impeachment rules. Mr. ANTHONY in the Chair.

Mr. DRAKE moved as an amendment to the fifteenth rule, "or any Senator," allowing them to direct the reduction to writing of any motion.

Mr. DRAKE also offered a substitute for the twentieth Rule, providing that agreements, or preliminary or interlocutory matters shall be allowed for one hour in opening and fifteen minutes in closing, one person only to be heard on each side.

Mr. CONKLING said: This, like many other questions, had been left to the Court. There was a practice in Courts which doubtless would be followed in this case.

Mr. DRAKE withdrew his amendment.

Mr. GRIMES moved to strike out the rule as unnecessary, holding that it had been a matter of congratulation that no such rule had ever been adopted by the Senate.

A long debate followed, during which Mr. FRELINGHUYSEN moved to amend by allowing two hours for argument on each side on parliamentary questions, or motions for extension of time to be applied before hand.

The amendment was finally rejected—twenty-four against twenty.

Mr. HENDRICKS moved to amend the second article, by striking out the words "Grand Inquest of the Nation," and insert "House of Representatives." Referred.

Mr. DRAKE moved to strike out the provisions in the seventh section, authorizing the presiding office to decide incidental questions, unless a formal vote of the court be called for.

Mr. SHERMAN opposed this and Mr HOWARD offered an amendment, which Mr. DRAKE accepted, providing for the submission by the presiding officer of all incidental questions to the Senate to be decided, if demanded by one sixth of the members, by yeas and nays.

After debate Mr. POMEROY moved to amend verbally by striking out the portions calling the Senate a Court, &c.

At ten o'clock Mr. HENDRICKS said as the Committee was not satisfied with its own report, he would move to adjourn. Lost—five to twenty-two.

Mr. POMEROY'S amendment was lost—eleven to seventeen.

Mr. HOWARD'S amendment was adopted—twenty-one to seven.

Mr. FERRY moved to strike out in various sections the "High Court of Impeachment," and other language conveying the implication that the Senate changed its character in the trial. Agreed to.

On motion of Mr. DRAKE the provision in the twenty-fourth article, administering the same oath to the presiding officer as to the Senate, was stricken out.

Mr. McCREARY moved to insert the word "Saturday" before words "except Sundays," in third section, providing for a daily session. Lost.

Mr. BUCKALEW moved to strike out the words "so help you God," at the end of the oath in section twenty-fourth, on the ground that affirmations as well as oaths were received. Lost.

The rules then passed finally, and at quarter before eleven the Senate adjourned.

HOUSE OF REPRESENTATIVES.

DISCUSSION ON IMPEACHMENT ARTICLES.

The House re-assembled at ten o'clock in Committee of the Whole, Mr. WASHBURNE, of Illinois, in the Chair, and continued the discussion on the articles of impeachment.

Mr. WASHBURNE having left the Chair, said he would not attempt to discuss the particular articles of impeachment before the Committee, but would submit for publication in the *Globe* a full examination of the whole question of impeachment for reference hereafter.

Messrs. GETZ and HUMPHREYS obtained leave to have their speeches printed in the *Globe*.

Mr. GARFIELD said the President's attempt to make Generals Grant, Sherman and Emery his tools showed a purpose to disregard the law and overide the constitution. He thought the tenth article should be altered to express military offences of insubordination and mutiny. The whole question might be tried in a few days and a great obstacle of reconstruction be put out of the way. Nothing but the fidelity of the army had prevented the President unsurping the powers and defying the laws and Constitution.

Mr. KERR said a charge had never been made on such a flimsey foundation as that on which the tenth article rested. It was trifling and absolutely disgraceful. There was not enough in it to convict a white man, much less a negro, of stealing an orange. The only parallel in ridiculousness to the proceedings was the humbug nitro-glycerine letter of a few days since. Relative to a statement of Mr. Lawrence that the Democrats supported impeachment, he (Mr. Kerr,) had yet to hear of the first Democrat, in or out of Congress, who supported impeachment. Democrats appeared here, not as defenders of the President, but as defenders of the right and condemners of the wrong.

Mr. PAINE discussed the question as to how Johnson was to be tried, whether as President or Vice-President, after which the Committee rose and Saturday's session was brought to a close at twelve o'clock.

Mr. LAWRENCE, of Pa., followed on the same side.

Mr. NIBLOCK followed in opposition, saying that the Republican party were prepared to revolutionize the country to get rid of a President distasteful to them. The President had done nothing deserving impeachment. It was a mere difference of opinion. The proper way to settle it was by judicial decision.

Mr. WILLIAMS denied an assertion of Mr. Niblock's that Mr. Stanton's testimony before the Judiciary Committee contained a declaration that he (Mr. Stanton) believed the Tenure-of-Office Law unconstitutional.

Mr. LOUGHRIDGE said although the President had been continually talking about the constitution, yet, he had been constantly violating its provisions for the purpose of putting into office rebels and traitors. He ought to have been impeached long ago.

Mr. PIKE said the President could have graver charges brought against him than the present articles, and was glad to know Mr. Boutwell would bring in an amendment comprising them. The President had made himself a jest and a byeword, had prostituted his offices and given all possible encouragement to rebels. Impeachment would end the combat. Impeachment was peace.

To-day's session was then immediately commenced, the House going into Committee again.

Mr. TRIMBLE protested against this movement as one subversive of the liberty of the people, there being no stability to the government if the President could be removed on such trivial charges.

Mr. CULLOM argued the President, in the removal of Mr. Stanton, had violated the law and subjected himself to the pains and penalties of impeachment.

Messrs. McCARTHY, LYNCH and WARD followed on the same side. The latter would have been pleased if the articles had presented some of the graver offences which that high offender had committed, viz: A usurpation of the legislative power, prostitution of the pardoning power, and power of appointment to office, but he bowed to the superior wisdom of the Court.

Mr. AXTELL opposed impeachment.

Messrs. FERRIS, KOONTZ and PERHAM spoke in favor of impeachment, and Mr. HUBBARD, of Conn., and ASHLEY, of Nevada, on the other side.

Mr. STEVENS, of Pa., sitting at the Clerk's desk, proceeded to address the House, members having collected in the area in front. He said: Never was a great malefactor so gently treated as Andrew Johnson. The people have been unwilling to blot the records of this country by weighing his crimes with their shame. Shame for an endurance for so long a time of his great crimes and misdemeanors. The Committee have omitted his wicked abuse of the patronage of the government, his corruption of the voters of the nation, by seducing them with the offers of offices and intimidating them by threats of expulsion and for the purpose of making them abandon their honest principles and adopt the bastard policy which he had just conceived, a crime more heinous than that which brought many ancients to the block. To this he was prompted by the same motives which made the angels fall. Soon after the death of Mr. Lincoln and the surrender of the so called Confederate army, possession of the whole government of the territory, persons and property of the territory claimed by and conquered from the so-called Confederate States of America, devolved upon the Congress of the United States, according to the most familiar and well adjudicated principles of national and municipal law, leaving nothing for the President to do but to execute the laws of Congress and govern them by military authority until Congress should otherwise direct. Yet Andrew Johnson, assuming to establish an empire for his own control, depriving Congress of its just prerogative, did erect North Carolina and other conquered territories into States and relations, giving them governments of his own creation and appointing over them rulers unknown to the laws of the United States, and who could not by any such laws hold any office therein. He revised qualifications of electors, directed who should hold office, and especially directed them to send representatives to both branches of Congress. Congress asserted its sovereign prerogative to govern those territories, excepting during their military occupation, by their own inherent power. He treated their pretensions as idle and refused to obey them. When Congress subsequently passed acts, dated March 2d, 1867, and their supplements, to reconstruct those governments under republican forms of government by the votes of the people, he pronounced them unconstitutional, and after they had become laws he advised the people not to obey them, thus to defeat instead of to execute the laws of Congress. All this was done after Congress had declared these outlaying States as possessing no governments which Congress could recognize, and that Congress alone had the power and control over them. This monstrous usurpation was worse than sedition, and little less than treason. He adhered to it by declaring, in his last annual message and at other times, that there was a Congress and that all their acts were unconstitutional. These being much more fundamental offences, and in my judgment much more worthy of punishment, because more fatal to the nation, the Committee have omitted them in their articles of impeachment, because they were determined to deal with the President. Encouraged by this impunity, the President proceeded to new acts of violence and disregard of the express commandment of Congress. It is these acts, trivial by comparison, but grave in their positive character, for which the Committee has chosen to call him to answer, knowing that there is enough among them, if half omitted, to answer the great object and purpose of impeachment. The proceedings can reach only to the removal from office, and anything beyond what will effect that purpose being unnecessary, may be looked upon as wanton cruelty. Hence the Committee have rested only on the most trifling crimes and misdemeanors which they could select from the official life of Andrew Johnson.

Mr. STEVENS went on to explain the articles reported from the Committee and concluded as follows: By some unaccountable misunderstanding the article which I hold in my hand, and which we may call one and a half, has been dropped out, for I do not find it in the articles in distinct language. I propose it as an amendment. It is that on the 12th of August, during the recess of Congress, Andrew Johnson, President of the United States, did suspend from office Edwin M. Stanton, and that while the Senate was considering the sufficiency of the reasons reported, Andrew Johnson formed a deliberate design and determined to prevent said Edwin M. Stanton from forthwith re-assuming the duties of his office, thereby committing a high misdemeanor in office, and that when he was defeated in accomplishing this design, by the integrity and fidelity of the Secretary ad interim, he sought to arrive at the same end by giving a letter of authority to Lorenzo Thomas, Ad't, General of the army, to act as Secretary of War ad interim, and severely censured the former Secretary of War ad interim for not yielding to his efforts to make him betray his trust.

This charge, said Mr. Stevens, is nowhere contained in the articles reported by the Committee, and unless it be inserted there can be no trial on it. If there be shrewd lawyers, as I know there will, and cavilling judges, and if without that article they do not acquit him, they are greener than ever I was when I commenced to practice at the Court of Quarter Sessions. If that article be inserted, the President's own letter showing both the removal and attempt to defeat the reinstatement, and although the Senate should decide the other charges in his favor, how could he or his counsel hope to escape from this one, and it is worth all the others put together, unless it be on the unconstitutionality of the tenure of office bill. Let us look and see what chance he has to escape there? The Senate has four times voted on the constitutionality of that very bill. The vote first stood, yeas 29, nays 9. I am sorry to say that it was a party vote, but every Republican voted in its favor. Let me see, continued Mr. Stevens, shaking his fingers about his head, the recreant who dares to tread back upon his steps and vote on the other side. There was a report of a Committee of Conference afterwards on the bill, and the vote then stood, yeas 22 nays 10, every Republican voting in favor of the measure. Then came the vote on it overruling the President's veto. That vote was, yeas 35, nays 11. Every Republican voted in favor of the bill. Now, then, let him who can expect to get out on the only ground left if my article is adopted. Let him hope, who dares to hope, that so high a body as that of the Senate will betray its trust, forget its own act, will tread back upon its own action, will disgrace itself in the face of the nation! Point me out one who dares do it, and you show me one who dares to be regarded as infamous by posterity. What chance has Andrew Johnson, with an article in, which was left out, in order to give him a loop hole? What chance has Andrew Johnson if that article be inserted? Unfortunate man! Thus surrounded, hampered, tangled in the meshes of his own wickedness! Unfortunate, unhappy man, behold your doom!

Mr. BOUTWELL offered various amendments to the article of impeachment, all of which were verbal and unimportant, except as to striking out the seventh article entirely. The amendments were adopted.

Mr. JENCKS offered as an amendment an additional article, charging the President with an attempt to get control of the government in a mode not in accordance with the Constitution and to prevent the army being an instrument to execute the laws of the United States. The amendment was rejected.

Mr. BUTLER offered the following as an additional article:

That said Andrew Johnson, President of the United States, unmindful of the high duties of his office and of the dignity and proprieties thereof, and of the harmony and courtesies which ought to exist and be maintained between the executive and legislative branches of the Government of the United States, designing and intending to set aside the rightful authority and powers of Congress, did attempt to bring into disgrace, ridicule, contempt and reproach the Congress of the United States and the several branches thereof, to impair and destroy the regard and respect of all the good people of the United States for the Congress and legislative power thereof, of which all officers of the Government ought inviolately to preserve and maintain, and to excite the odium and resentment of all the good people of the United States against Congress and the laws by it duly and constitutionally enacted, and in pursuance of his said design and intent, openly and publicly, and before divers assemblages of the citizens of the United States, convened to divers parts thereof to meet and receive Andrew Johnson as the Chief Magistrate of the United States, did on the 18th day of August, in the year of our Lord 1866, and divers other days and times, as well before as afterwards, make and deliver with a loud voice certain intemperate and scandalous harangues, and did therein utter loud and bitter menaces, as well against Congress as the laws of the United States duly enacted thereby, amid the cries, jeers and laughter of the multitude then assembled and in hearing, which are set forth in the several specifications hereinafter written, in substance and effect, that is to say."

The article is supported by three specifications giving extracts from speeches of Andrew Johnson in Washington, August 18th, at Cleveland, Ohio, September 3d, and at St. Louis, Mo., September 8th, 1866.

The specifications conclude: Which said utterances, declarations, threats and harangues, highly censurable in any, are peculiarly indecent and unbecoming in the Chief Magistrate of the United States, by means whereof said Andrew Johnson has brought the high office of President of the United States into contempt, ridicule and disgrace, to the great scandal of good citizens, whereby Andrew Johnson, President of the United States, did commit and was there and then guilty of misdemeanor in office.

Mr. WILSON, of Iowa, opposed the amendment, saying it had been referred to the Committee and voted down.

A vote was taken by tellers and resulted in fifty to seventy-four, so the amendment was rejected.

As the clock indicated the hour of four, the Committee, in accordance with the order of the House, rose, and Mr. DAWES reported the action to the House. The amendments proposed to be offered by Mr. Stevens, and all other amendments, were thus excluded from being offered.

Mr. ELDRIDGE rose and said: I am instructed by forty-five members of the House of Representatives to present a communication from them to the House, and ask that it be read. It is respectful in terms, and is in my opinion privileged.

The SPEAKER—The gentleman may consider that a protest is privileged, but the digest shows it is not so considered in parliamentary law.

Mr. ELDRIDGE—Then I ask unanimous consent to present this communication from forty-five members of the House, and on that I propose to submit a motion.

Numerous objections were made on the republican side.

Mr. ELDRIDGE—Then I ask consent to have the communication printed in the *Globe*.

Numerous objections were made.

Mr. FARNSWORTH made the point of order that under the orders of the House no proposition could be entertained, but that the House should proceed to vote on the articles of impeachment.

The SPEAKER sustained the point.

THE DEMOCRATIC PROTEST.

The following is a copy of the protest sought to be presented:

The undersigned members of the Fortieth Congress of the United States, representing directly or in principle more than one-half of the whole people of the United States, do hereby, in the name of law and justice and in behalf of those they represent, most solemnly protest against the tyranny and unjustice practiced by the majority of the House, in violating the sacred rights of free debate and unrestrained deliberation upon one of the greatest questions ever brought before an American Congress. The rules of the House, made for the protection of the minority, and by strict adherence to which the weaker party can only be protected from these irregularities and abuses which the wantonness of power is but too often apt to suggest to large and successful majorities, have been, during this entire Congress, in violation of their true spirit and intent, wantonly and unprecedentedly suspended and set aside, not upon particular and pressing matter, but upon all pending subjects of legislation, so that by this reckless and arbitrary suspension of rules, and the wanton abuse of the previous question, the rights of the minority have been utterly disregarded, the House of Representatives has ceased to be a deliberative body, and the minority have been compelled to vote upon the most important questions without any proper or reasonable time for debate or consideration. To such an extent has this dangerous and oppressive practice obtained, that measures affecting vitality of the whole country, and the dearest interest of our constituencies, tending, as we believe, to the subversion of our republican form of Government, in their very nature demanding of the people and representatives the most careful examination and scrutiny, have been hurried through the forms of legislation without being printed, without one word of debate, or one moment's consideration, without, indeed, the opportunity of the undersigned to protest, except in violation of the then operating order, enforced by the majority as the order of the House.

These alarming abuses of power might not seem to demand this formal protest, if we were not forced to the belief that a determined intention exists with the majority to revolutionize this government by destroying the other co-ordinate branches, and vesting all the power of the government in Congress. In the step taken to depose the President of the United States, we are admonished that there is no end to these oppressive measures to cripple the power and silence the voice of the minority. The resolution was rushed through the House under the operation of the previous question, referring the matter to the Committee on Reconstruction, the Committee in hot haste sitting when the House was in session, in violation of one of its express rules, considered and by a strict party vote adopted and presented to the House for its action, and then was exhibited one of the most extraordinary spectacles ever witnessed in a deliberative parliamentary body. Members were allowed, some thirty minutes, some twenty, some ten, some five and some one minute only to discuss the most momentous question ever presented. Many could not even get one minute under the arbitrary rule of the majority, and more than half of those even of the party voting to enforce the previous question who desired to be heard were permitted only to print their speeches in the *Globe*, after the question upon the resolution was decided, and which were never delivered in the House.

No comment would demonstrate more completely than the facts themselves the viciousness and illegality of such proceedings. But this wanton and excessive use of the power of the majority does not stop here. While the Committee were in session upon the further proceedings to remove the President, and in anticipation of its action, under the operation of the previous question, without debate, in violation of an express rule, new, special and most extraordinary rules for the conduct of this proceeding, changing, without previous notice, standing rules of the House, were adopted, to further limit the debate and more completely to place the minority in the power and at the mercy of the majority. Thus while the majority of Congress are warring upon the other co-ordinate departments, the Executive and Judicial, and are endeavoring to subjugate and bring them both under the will and control of Congress, the minority of the House of Representatives are steadily and surely being stripped of all power and their constituents deprived of all representative voice in the counsels of the Republic.

We do, therefore, most solemnly protest against the indecorous and undignified haste with which the majority of this House inaugurated, presented and rushed through, by a strict party vote, in plain and palpable violation of one of the standing rules of the House, a resolution demanding the impeachment of the Chief Magistrate of the people for alleged high crimes and misdemeanors in office, when the gravity of the charge, character of the high office against which this attack was directed, and the unforseen and tremendous consequences which might result therefrom to the peace and prosperity of people, called for the exercise of the calmest and wisest judgment, the most unprejudiced and impartial deliberation on the part of those who had such proceedings in charge.

We do most solemnly protest against this thrice repeated attempt to degrade and break down one of the great coordinate branches of the government, through the spirit of party hatred and vengeance, against the person who by the Constitution is in the rightful and conscientious discharge of its functions, thus consuming the precious time which ought to be faithfully devoted to an earnest effort to relieve the pressing wants of the people, restoration of a torn and distracted country to union and good order, and to lightening the burden of taxation which is pressing down all the energies of trade and commerce to the point of universal bankruptcy and ruin.

We do again most solemnly protest against and profoundly deprecate and deplore any and all attempts to array in hostile antagonism to each other the Departments of the Government upon the mere question of the constitutionality or construction of a law of Congress, the proper jurisdiction and final adjudication of which belong exclusively to the judicial tribunal.

And we hereby warn the people of the United States that the public liberty and the existence of free institutions are involved in this suicidal struggle, and that they are in imminent peril of utter overthrow.

We do further most solemnly protest against that wild and radical spirit of innovation upon the early and well-settled practice of the Government, a practice established by men who framed the Constitution and who best understood its spirit and meaning, which puts the Chief Magistrate of the Republic, the representative of the dignity and power of the people, at the mercy of one of his subordinates, assuming to be Secretary of War, in violation of his own pronounced conviction of the law, who has the unblushing effrontery to place himself in the unwarranted position of communicating directly with Congress in utter contempt of the authority of his superior, and with the deliberate purpose of resisting his authority.

The undersigned, therefore, in the character of representatives of the people, being deprived by the despotic powers of an inexorable majority of the high privilege of debate, that great instrument in the discovery of truth and most cherished heritage of a free people, do hereby solemnly and earnestly protest against these infractions of the rights of the people, and respectfully ask that this, their protest, may be spread upon the journal of the House.

IMPEACHMENT MANAGERS.

The vote on the articles being completed, the House proceeded to vote for managers to conduct the impeachment before the Senate.

Mr. POLAND nominated the following members: Stevens, Pensylvania; Butler, Massachusetts; Bingham, Ohio; Boutwell, Massachusetts; Wilson, Iowa; Williams, Pennsylvania; Logan, Illinois.

In reply to a question by Mr. Peters, as to who was to be Chairman, the Speaker said the Managers would decide the question of priority among themselves.

The Speaker appointed as tellers to count the ballots, Messrs. Poland, Jencks, Spalding and Marshall.

Mr. MARSHALL asked to be excused. The SPEAKER nominated in his place Mr. Randall.

Mr. RANDALL also declined, stating he did not wish to participate in the proceedings.

The SPEAKER remarking it appeared the minority desired not to be represented among the tellers, appointed Mr. Blair, of Michigan, as the fourth teller.

The members were then called alphabetically and each as called stepped to the area in front of the Speaker's chair and deposited his ballot in the box kept by the tellers. No Democrats voted.

On the ballots being counted, the result was announced as follows: Whole number of votes cast, 118; necessary to a choice, 60; for Mr. Stevens, 106; for Mr. Butler, 108; for Mr. Bingham, 114; for Mr. Boutwell, 113, for Mr. Wilson, 112; for Mr. Williams, 107; for Mr. Logan, 106; for Mr. Jencks, 22; Scofield, 3; Poland, 2; Orth, 2; Peters, Blair, Churchill, Benjamin and Upson, one each.

The Speaker announced that Messrs. Stevens, Butler, Bingham, Wilson, Williams and Logan, having received a majority of the votes cast, were duly elected.

Mr. BOUTWELL offered a resolution for printing one thousand copies of the articles of impeachment for use. Referred to Committee on Printing.

Mr. BOUTWELL offered a resolution that a message be sent to the Senate informing that body that the House had appointed managers to conduct the impeachment against Andrew Johnson, President of the United States, and had directed such managers to carry to the Senate articles agreed upon by the House to be exhibited in maintainance of such impeachment, and the Clerk of the House shall go with such message. Adopted.

Mr. BOUTWELL offered a resolution that the articles agreed to by the House to be exhibited in its name and in the name of the people of the United States against Andrew Johnson, President of the United States, in maintenance of impeachment against him for high crimes and misdemeanors in office, be carried to the Senate by the managers appointed to conduct such impeachment.

Mr. ROSS suggested to strike out the words "the people of the United States."

Mr. PERHAM suggested that all the Democratic members of Congress might be struck out.

The resolution was adopted.

On motion of Mr. SCHENCK it was ordered it shall be the order to-morrow, as if it were Monday, to move to suspend the rules.

Mr. ELDRIDGE moved to suspend the rules for the purpose of considering the protest of the Democratic members.

Mr. KELLY objected.

The House at a quarter before seven adjourned.

PERMANENT ORGANIZATION.

On motion of F. C. Negley, Maj. A. M. Brown was elected permanent chairman. Upon taking the chair he thanked the Convention for the honor conferred upon him in calling him to preside over their deliberations, and remarked that as the lamented Lincoln had said, in speaking of the immense Republican majority given him in Allegheny county, that it was too large for a county—it should be a State. He alluded to the political situation in 1865, when Grant and his followers were striking at Richmond, which was then in the hands of the rebels, and said the Republican party, with Grant at its head, as formerly, were invited to another Richmond victory. The White House, which had been made sacred by Washington, Jefferson, and others, was now in the possession of corrupt politicians, plunderers, and office brokers, and it was reserved to the Republican party, with Grant as its leader, to clear it of the vile pollution with which it was now infested. After some further remarks, in which he strongly recommended the nomination of Gen. Grant for the Presidency, and which were received by the Convention with great applause, the speaker closed.

On motion of B. F. Morgan the temporary Secretaries were elected permanent Secretaries.

The permanent organization was completed by the election of the following Vice Presidents: R. H. Davis, James McBrier, A. M. Watson, John Young, Jr., W. C. Brown and Thomas Marshall, Esq.

The Chairman then in a brief manner stated the object of the Convention.

Major Russell Errett moved that a committee on resolutions, consisting of seven members, be appointed. The motion was adopted, and the chair appointed the following: Russell Errett, J. S. Lambie, A. M. Watson, J. F. Slagle, T. M. Bayne, George Neely, William C. Brown.

J. F. Slagle, Esq., moved that all resolutions be referred to the committee just announced. Adopted.

NOMINATIONS AND BALLOTING.

The Convention then proceeded to nominate and ballot for delegates, with the following result:

DELEGATES TO CHICAGO CONVENTION.

A. M. Brown	85
J. K. Moorhead	75
Thomas Ewing	38

Messrs. Brown and Moorhead were declared the delegates.

C. W. Batchelor and J. S. Slagle were chosen alternates by acclamation.

STATE CONVENTION—SENATORIAL.

Thomas M. Marshall and Hugh S. Fleming were chosen by acclamation. J. M. Kirkpatrick was placed in nomination, but his name was withdrawn at his request.

REPRESENTATIVE DELEGATES.

Nominations having been made the first and only ballot resulted:

*Russell Errett	132	Alfred Slack	38
*W. S. Purviance	89	Joseph French	26
*Joseph Walton	85	W. J. White	29
*B. W. Morgan	75	G. C. Taylor	25
*Joseph A. Butler	66	Geo. F. Morgan	24
*Thos. M. Bayne	63	Jared M. Brush	15
James L. Graham	61	S. Schoyer, Jr.	13
Arthur Hobson	51	A. H. Gross	38
Wm. Mittenewi	49	W. A. Herron	6
John Gilfillan	37	Benj. Singerly	15

Six were to be chosen, and Messrs. Errett, Purviance, Walton, Morgan, Butler and Bayne having received the highest number of votes, were announced as the delegates.

Mr. R. H. Davis, before the balloting was commenced, submitted the following:

Resolved, That when this Convention proceeds to vote for delegates it be done *viva voce*.

Mr. McCarthy moved to amend that it be by marking. Carried. The motion, as amended, was adopted.

Previous to the announcement of the ballot, J. F. Slagle, Esq., moved that the six representative delegates receiving the highest number of votes be elected. Adopted.

23D DISTRICT.

The Chairman announced that the conferees to meet with conferees from Armstrong and Butler counties, would be selected by the delegates from the north of the rivers, after the Convention had adjourned.

CHOICE FOR PRESIDENT AND VICE PRESIDENT.

Before proceeding to marking, F. C. Negley, Esq., moved that the delegates to the National Convention at Chicago be instructed before being elected. He did not want any doubt in regard to the matter. He moved that they be instructed to vote for General Grant as the Presidential nominee, first, last and all the time.

This motion was received with great enthusiasm, and was unanimously adopted.

Mr. Cutler moved that they also be instructed to vote for Ex-Gov. Curtin for the Vice Presidency.

Maj. Errett suggested they be instructed for Edwin M. Stanton.

Col. Jno. Young moved that they be instructed to vote for Galusha A. Grow for Vice President.

Mr. McCarthy thought the delegates should be untrammeled so far as the Vice Presidency was concerned. They should be allowed to take in the whole field at the time of the meeting of the Convention, and vote for the most available man for the position. He therefore moved to lay the matter on the table. The motion was adopted.

CRAWFORD COUNTY SYSTEM.

Mr. McCarthy stated that as a part of the business of the Convention was to take into consideration the proposed change in the manner of making nominations in Allegheny county, he would move that the matter be referred to a committee of seven, with instructions to submit the report to the Convention.

The motion prevailed and the following Committee was appointed: Messrs. W. C. McCarthy, David Holmes, J. E. M'Kelvey, G. R. Pearson, John G. Conner, G. Y. M'Kee and Theo. S. Tower.

COMMITTEE ON RESOLUTIONS.

The Chairman then announced that the Committee on Resolutions had completed their labors and were ready to report.

Major Russell Errett, Chairman of the Committee on Resolutions, submitted the following:

Resolved, 1. That the Union Republican party of Allegheny county reaffirms its devotion to the principles of justice, equality and national integrity which were vindicated in the suppression of the rebellion; and it declares its approval of the reconstruction measures of Congress.

2. That this Convention expresses thanks to the soldiers and sailors of the Republic, to whom, under Providence, the nation is so much indebted for the preservation of its liberties and the perpetuation of its power, and that their heroic sacrifices and services in the suppression of the rebellion will be remembered with gratitude by the people of the country which has been saved through their valor and patriotism.

3. That it is our unalterable purpose to maintain inviolate the public faith and national credit; to lessen the burden of taxation by cutting off all useless expenditures, and insisting upon the most thorough economy in the administration of the Government; and we confidently anticipate that, at an early day, the Union will be completely restored on the solid basis of liberty, loyalty and genuine republicanism.

4. That the abiding faith in the integrity, wisdom and patriotism of General Grant, expressed in the resolutions adopted in our last County Convention, has been strengthened by his able and honest discharge of the duties devolving upon him as Secretary of War—a position which he accepted through devotion to his country, so lately rescued from the power of treason by the brilliant achievements of himself and his companions in arms.

5. That we will look to him in the future, as the lovers of civil liberty looked in the past, as the man above all others, who can bring order out of confusion, and inspire that confidence so necessary in the Executive officer of the Government. We hold him as our next *President of all the States—"the man of destiny"*—through whom by the help of God, order and prosperity will again be restored, true patriotism once more respected, and treason not only "be made odious," but banished from the land.

6. That General Grant and his companions having conquered rebellion in the field, we will now trust to them the work of crushing treason in the Cabinet and Councils of the Republic "*once and forever*."

7. That the thanks of the people of Allegheny county are due, and are hereby tendered to the Republican members of the House of Representatives in Congress for their courage and fidelity in presenting to the Senate articles of impeachment against Andrew Johnson, President of the United States, for his resistance to and defiance of the Constitution and the law; that the moral sense of the country will sustain the Senate in the rigid enforcement of the law against him, and that we look forward to the removal of this bold, bad man from the head of the government as the certain means of restoring peace and prosperity to the distracted nation, and of securing the early restoration of the Southern States under republican constitutions framed by their loyal people.

23D DISTRICT CONFEREES.

On motion of Mr. Morgan, the report was received and the resolutions adopted.

Mr. McBrier moved that the delegates from the Twenty-third District meet and appoint conferees to confer with conferees from the other counties comprising the District to elect representatives to the National Convention. Adopted.

STANTON ENDORSED.

Major Errett offered the following additional resolution:

Resolved, That the thanks of the country are due to Hon. E. M. Stanton, Secretary of War, for his stern devotion to duty and to the country, and for his firm, unyielding adherence to his rights under the law, at a time when such adherence was essential to the preservation of our free institutions. The country will never forget the debt of gratitude it owes to him.

The resolution was adopted by a unanimous vote.

MODE OF MAKING COUNTY NOMINATIONS.

Mr. McCarthy, Chairman of the Committee of Seven, to whom had been referred the matter of the proposed change in the manner of making nominations, presented the following reports:

Resolved, That on or before the first day of May, 1868, the Union Republican voters in each election district, in Allegheny county, shall meet and elect three persons, to be known as the Registry Board, whose duty it shall be to make out a list of all the Republican voters in their election district. They shall give notice of the time and place (not more than thirty or less than three days) before the time of holding a primary meeting, when they shall sit for the purpose of perfecting and correcting the list of voters. The said Board shall go before a magistrate, when said list is perfected, and make oath that they have made such list to the best of their knowledge and belief, a true registry of the Republican voters of their district. The said Board of Registry shall act as election officers of all primary meetings, and shall receive the vote of no person whose name is not on their registered list. The Board shall have the power to fill vacancies among themselves, and shall be elected annually before the first day of May. Their term of office shall continue for one year from the first day of May.

Resolved, That the delegate system be continued.

This report was signed by Messrs. David Holmes, George Y. M'Kee, T. S. Tower, and John G. Conner.

The minority submitted the following report:

The minority of the Committee report that they are in favor of the report of the Committee with the exception of the resolution favoring the continuance of the delegate system. In its place they offer the following:

Resolved, That all nominations, hereafter, shall be by a popular vote.

This report was signed by J. E. M'Kelvy, George R. Pearson and W. C. McCarthy.

Mr. McBrier moved the adoption of the minority report.

Mr. Holmes moved, as an amendment, that the majority report be substituted, and said that he was opposed to the "Crawford County System," not only on account of its opening up a channel for competition, but because it would put the entire matter of making nominations in the hands of the city. The country districts would have no say in it.

Mr. McDonald was in favor of the system and hoped the report of the minority would be adopted. He said it was not just that a district having but fifty Republican voters should have as much say in nominating candidates as others where they polled five or six hundred votes.

Mr. Watson hoped the Convention would adopt the report submitted by a majority of the Committee. The Crawford county system, he said, had been effectually tried in other localities and was a failure; that by it any old political back could beat the best man in the country.

Mr. McKelvy thought the delegate system more corrupt than the other, from the fact that there were not so many men to buy as there would be were the nominations made by a direct vote.

Mr. Negley said that both systems had their objections, but of the two he thought the Crawford county system the best.

Mr. McBrier said he objected to the delegate system for the same reasons that Mr. Watson objected to the other—that it opened up an avenue for fraud. In addition to this he said it was impossible to have an expression of the masses in favor of more than the candidate for the principal office—that the delegates were selected by the candidates instead of the people, and when they met in Convention everything was sacrificed for the advancement of the one particular candidate.

Mr. Watson again took the floor and spoke at some length against the Crawford county system.

Mr. Ballentine, of Temperanceville, moved to lay the whole matter on the table.

A vote was taken on this motion, and the Chairman stated it appeared to him the "ayes had it."

The "yeas and nays" and "division" were called for, and after some little confusion, it was decided to determine the question by the delegates in favor of laying the matter on the table passing to the right side of the room. When thus separated it was apparent they were largely in the majority, and Mr. Ballantine's motion was decided carried without a count.

Mr. D. Holmes, of Collins, offered the following:

Resolved, That hereafter Republican County Conventions be held on the Tuesday following the primary meetings, Monday being inconvenient for delegates from the country districts. Adopted.

Mr. R. H. Davis offered the following:

Resolved, That hereafter the representation in the county Conventions shall be by one delegate, and that the voting shall be by *viva voce*. Voted down.

On motion, adjourned.

Twenty-Third District.

The delegates in the Convention from the north side of the river, or that portion of Allegheny county comprising, with Butler and Armstrong counties, the Twenty-third Congressional District, separated from the remainder of the delegates and organized in the Quarter Sessions Court room, for the purpose of selecting conferees to meet with conferees from Butler and Armstrong counties, and select delegates to the Chicago Convention.

Mr. R. H. Davis was called to the chair, and Thomas M. Bayne and James A. Shoales were chosen Secretaries.

Nominations having been made, the Convention proceeded to mark for conferees, which resulted in the selection of Messrs. J. C. Lewis, of Sharpsburg, A. M. Watson, of Sewickley, and James A. Shoales of the Fifth Ward, Allegheny, who were instructed to vote for R. H. Davis as one of the Representative Delegates from the Twenty-third District.

The Convention then adjourned.

Explosion and Fire.

Yesterday morning about eight o'clock an explosion occurred in the cellar at No. 32 Market street, occupied by W. Nelson, house and sign painter, for storing paints, oils and varnishes. Mr. S. Carey, foreman of the paint shop, and Marion Dunlap, a young man also employed in the shop, went to the cellar for the purpose of drawing some varnish, taking a lighted candle with them. The barrel containing the varnish had not been opened for some time, and as soon as the bung was removed, the gas which had accumulated in considerable quantity, forced its way out, and coming in contact with the flame of the candle, immediately ignited. In an instant the fire communicated to the varnish in the barrel, and an explosion ensued. The barrel was bursted into pieces, and the fire scattered about in every direction. Dunlap was blown several feet, and sustained severe bruises on the head, hands and right leg, by being struck with pieces of staves. Fortunately, he was not dangerously injured, and succeeded in making his way out of the cellar through a rear door. He was afterwards taken to a house on Second street, where his injuries were properly attended to, when he was taken to his home in Allegheny. Mr. Carey escaped uninjured.

The alarm of fire was sounded from Box 13, to which the Fire Department responded promptly, and under the direction of Chief Hare, succeeded in extinguishing the flames before they had made much progress. The loss was very slight.

$3,000,000 Expended During 1867 in the Erection of Two Thousand New Buildings.

During the year 1867, in spite of the general hard times which prevailed, there were erected within the boundary of the old city proper, four hundred and nineteen new store houses and private dwellings, at a cost approximating $1,500,000. In the districts lately consolidated there were more than fifteen hundred new houses erected during the same period, the cost of which will fully reach $1,500,000 more, making the neat aggregate of $3,000,000 expended in Pittsburgh on building improvements in 1867. Here is a summary compiled by E. S. Wright, Esq., Assessor of Water rents, of the new buildings erected in the old ten wards during that year:

First Ward	6	Sixth Ward	89
Second Ward	5	Seventh Ward	97
Third Ward	26	Eighth Ward	98
Fourth Ward	11	Ninth Ward	55
Fifth Wrrd	18	Tenth Ward	17

Total number in old city proper....417

Letter Carriers' Report for the Month of February, 1868.

The following report shows the numbers of letters and papers delivered and collected by the letter carriers of this city for the month of February, 1868:

	Mail Letters.	Dropped Letters.	Papers.
Delivered	81,687	10,510	25,974
Collected	42,150	4,491	1,288

Throughout the business portions of the city there are five deliveries and collections daily, the last collection at 8 o'clock p. m. There is one delivery daily at the Copper Works, Frankstown, and Oakland.

Persons desiring their mail matter delivered are requested to leave orders with the carrier or at the Postoffice.

Important Notice.

At Joseph Horne & Co's extensive wholesale and retail trimming and notion house, Nos. 77 and 79 Market street, will be found a very large stock of choice and seasonable goods which are offered at specially reduced rates. The firm bought largely and carefully during the recent depression in the eastern markets, and are now prepared to offer their patrons such bargains as have seldom prevailed in this city. Dealers and milliners in making their purchases while in the city or in preparing their orders, will consult their interests by keeping this house in view.

Report of the Street Commissioner.

From the report, for the month of February, of the Street Commissioner of the Second district, which is composed of the Third, Sixth, Seventh, Eighth, and part of the Second and Tenth wards, we extract the following:

Ice cut from gutters, 84,500 linear feet; bursted hydrants reported, 47; arrests made for throwing ashes and rubbish in streets, 47.

Snow Storm.—The snow storm yesterday appears to have been quite heavy on the Allegheny Mountains, and the trains on the Pennsylvania Railroad have all been more or less delayed in consequence of it. The Philadelphia express, due here at 2:20, was two hours behind time. The companies of several of our street railways have been only running half the usual number of cars, and in some instances they are running very irregular.

Dry Goods and Where to Purchase.—At Bates & Bell's, No. 21 Fifth street, a very choice lot of fine foreign and domestic dry goods is offered to patrons at very reasonable prices. The stock is new, fresh and inviting, having been selected with much care, and during the recent depression in the Eastern markets. Persons contemplating making purchases in the line should keep this house in view.

Hotel Keeper Beaten.—D. B. Laughlin, a hotel keeper at Crooked Run Station, made information before Alderman McMasters, charging Jacob Minehart, Robert Fisher and Samuel Keck, with assault and battery. The defendants, it appears, boarded with him, and yesterday morning, without any provocation, attacked and beat him in a shameful manner. A warrant was issued for their arrest.

Another Great Cure.—In another part of to-day's GAZETTE we publish a cure of Asthma, made by Dr. Keyser of this city, after many fruitless efforts to get relief from other sources. The Doctor's undivided attention being given to diseases of an obstinate chronic character has awakened the hopes of many persons who had given up all ideas of ever procuring relief.

Assault and Battery.—James McPick made information before Alderman Thomas, charging two men, named Graham and Brown, with assault and battery. It is alleged by the prosecutor that the defendants struck him on the head, knocking him down and injuring him severely. A warrant was issued for the arrest of the accused.

Temperance Meeting.—The second of a series of lectures before the Allegheny Temperance League will be delivered this evening, at 7½ o'clock, in the Sandusky Street Baptist Church, by the Rev. A. K. Bell, D. D. Subject: "Would a Prohibitory Liquor Law be desirable at the present time?" The audience will be favored with good singing.

Assault and Battery.—James A. Moris, made information before Justice Barker of South Pittsburgh, yesterday, charging Richard Jones with assault and battery. The parties are employed at the Sligo Iron mill, where the difficulty occured. A warrant was issued for the arrest of Jones.

Fined.—John Wolf was arrested yesterday and taken before Mayor Drum, charged with the violation of an ordinance of Allegheny city, which prohibits the driving of cattle or other stock through the streets on Sunday. After a hearing he was fined five dollars and costs.

Election of Elders.—The congregation of the First Presbyterian Church of Pittsburgh met yesterday and chose the following gentlemen as Ruling Elders: Dr. J. W. Wishart, James Dickson, Robert A. Clarke and E. D. Cook.

A Change.—A most decided change has taken place in the weather within the last twenty-four hours, during which time the mercury has fallen at least thirty degrees.

The Pittsburgh Gazette

TUESDAY, MARCH 3, 1868.

THE HOLLOW insincerity of Democratic professions of respect for Judicial authority is still further illustrated by the Philadelphia *News*, which brands the three Judges of the Supreme Court of the District of Columbia as "judicial conspirators and traitors," "perjurers," "judicial miscreants," "wretched tools of a traitorous cabal," and so on—and all simply because the Court discharged Gen. Thomas from arrest!

RUMORS multiply that Mr. JOHNSON is advised with increasing urgency, by his Democratic friends, to resign. If he does this, the impeachment they think, will drop, and he would be eligible as a Democratic Presidential candidate, while, if he obstinately persists in standing a trial, his conviction is sure and he will no longer be eligible to any office, except in a revived Southern Confederacy. Their arguments find him still deaf, but it is because he knows well the slippery faith of his counsellors.

WE ARE BECOMING daily better instructed in the flexible and comprehensive character of the English language, as we note and admire the ingenuity and nice appreciation of meaning with which new words and phrases are added to the general stock. The latest proof of this philological skill—and perhaps the most admirable—is given by the Boston *Post*, which says that the recent Presidential usurpations and violations of law are only "acts of constructive disobedience"! By all means, let us no longer talk of treason, of defiance of law and of disregard of official oaths! "Constructive disobedience" is the term to use if you would deal gently with the erring!

A QUESTION is likely to arise as to the meaning of the thirty-third section of the Bankrupt law, which excludes debtors showing less than fifty per cent. of assets from a discharge without the assent of a majority of the creditors, unless the application shall have been filed "within one year from the time the act goes into operation." It has generally been understood that, as no petitions were to be received until June 1, 1867, the year would begin to run from that time, but, in view of the language of the last section of the same act, which provides that the law should take effect on the date of its approval, March 2nd, 1867, is is held in many quarters by the legal profession that the limitation in the thirty-third section has now gone into effect.

GENERAL HANCOCK desires to be relieved from the command of the Fifth Military District. The public interests will be promoted by granting his request. It is not necessary to pronounce any opinion upon the integrity and patriotism of General HANCOCK, in his present command; the facts that the friends of speedy reconstruction upon a loyal basis in the States of his district have been able to find absolutely nothing in his policy to encourage them, while the rebel element not only welcomed him with joy but has sustained all his official acts, and will mourn, as for a lost friend, over his withdrawal from the command, suffice to render his retirement acceptable to the friends of the Union everywhere.

THE same good reasons which forbid any serious consideration of the extreme proposition to suspend the President from his official functions pending trial, are equally applicable to the kindred project of declaring a state of non-intercourse between the Senate and the President while the impeachment is in progress. It is within the power of the Senate quietly to table all nominations and postpone the consideration of other Executive business, as discretion may prompt, upon cases as they arise, without proceeding by a formal vote, either directly or indirectly, in advance of the fair trial to which Mr. JOHNSON is entitled, to strip him of any of the Executive functions. The Senate will see that to adopt any proposition of this sort would practicably leave the country without a Chief Magistrate, a dead-lock for which the Constitution has made no provision. He is President in the fullest legal and technical sense—albeit without more than the shadow of official dignity and personal influence—until his term of office is terminated in one of the modes prescribed by the Constitution. Until then the country patiently endures him.

RAILWAY MANAGEMENT.

Many men there are who maintain, in effect, that Railways ought to be conducted on a system closely approaching to Universal Benevolence. Strange to say, not a few of these infatuated individuals are experienced business men, who think their own private affairs are running in a bad way indeed if they do not make, above expenses, from fifteen to thirty per cent. a year on all the moneys they have invested. Talk to them of a bargain and they understand well enough that "business is business;" that is, that every man has an indisputable right, not simply to make a reasonable profit, but to do the best he can for himself, according to the demand in the market and the competition to which he is subjected.

Why have not owners of Railways the same privilege? We have turned this problem about so as to look at it from all sides, and have found no substantial reasons for holding that Railway Companies shall take less than the market will fairly give them for any particular service. It seems on the face of the thing preposterous to demand that men shall put their surplus cash into Railways, expecting to get, on the average, less returns therefrom than from any other form of investment whatever.

It is a fact that railways cannot be constructed without delegating to the respective Companies some portions of what lawyers call the State's right of pre-eminent domain. In consenting to such delegation the State is at liberty to affix such conditions as it shall deem just and suitable. These conditions may relate to the rates on which freights and passengers shall be transported, as well as to the indemnity to be paid to the individual holders of property entered upon and used, the manner of construction, and all other details. It will then remain for the persons who propose to organize as a Railway Company to decide whether they will subscribe to the terms imposed, and invest their money. If they do accept the conditions laid down, and fulfill on their part, they have an undoubted right to all the benefits that may accrue.

There ought to be no need to restate truisms such as these, but there are thousands of men who appear to think that all railway dividends are so much unjustly wrenched from the public. They want to use railways—some of them constantly—and grumble if they do not succeed in making liberal profits, but talk as if Railway Companies ought to do business for glory or moonshine, and hold ten per cent. dividends by them to be in the nature of robberies.

Every way it is desirable that moneys put into Railways should pay as largely as if put into banks or manufacturing. The security of Railway Travel depends much on the opulence of the Companies owning the respective lines. An empty Treasury is certain to make an unsafe road; and when the business done actually warrants a full Treasury, an empty one, made so by compulsory low fares, ought to make a road on which no train could go safely through. This is simply saying that Railways ought to be conducted on business principles, and neither on principles of benevolence or favoritism.

Whatever may have been the case at the beginning, competition is now such on all the through lines, so-called, that rates are lower than they really ought to be, either for the welfare or the prosperity of stockholders. Of course, way business does not stand on such ground of vantage as to be able to make its own terms with the companies. The competition here is not between different Railways, but between one Railway and the old method of transit, and the Railway Company has the best of it. But, in this respect the Railway Company proceeds in the same way as a manufacturer, merchant, mechanic, butcher, or what not, who has command of a particular market, or has special advantages therein. Whatever is right in an individual, in this way, is right in a Railway Company. Unquestionably, such a Company, by its rates, may accelerate or retard the development of the district through which it passes; but it should not be forgotten that the interests of the Companies are always on the side of developing, to the fullest practical extent, the resources of the region by which they are naturally fed.

For some years past we have watched with no little interest the carrying trade from some of the anthracite coal districts of this State. Individually, operators were in a perpetual and chronic stew about railway freights; and grumbled none the less when they were returning for assessment for federal taxes annually, incomes as high as $600,000 a year each. They still thought the owners of railways ought to do business without profit, "for the fun of the thing."

These are among the reasons which have restrained us from incessant clamor against the Pennsylvania Railroad Company. All we have asked of that Company was to "do business on business principles;" and that, we apprehend, is what it will do, in justice to itself, whatever complaints may be made against its management.

In its action respecting the Connellsville Company it has been clearly in the wrong. It endeavored to prevent legitimate competition by unfair means. What we could say or do to help the right in that matter, we did cheerfully. That controversy is now closed out, and the speedy completion of the Connellsville road is assured. But we suspect that when it shall be opened through, the Company owning it will not escape censure, unless they consent to "work for nothing and find themselves."

FARM, GARDEN AND HOUSEHOLD.

Tapping Sugar Trees.

Years ago, when the country was new, it was no object to protect the maple, for the forests were broad, and sugar trees were growing thickly through a great portion of them. They fell with other trees, until the woodman's axe converted acres of forest into tillable fields, leaving in too many cases but a small nook of woodland upon the farm. For a few years past it has been noticed that maple trees are dying out faster than others. Where but a short time ago thousands were used for sugar making, but hundreds stand to-day. The cause of this can be attributed to nothing but the severe mode practiced in tapping.

The old plan of boxing with an axe was abandoned, and one supposed to be less injurious adopted, that of boring; but since tapping with the bit has been practiced, maple trees have died faster than ever before. When an incision is made into the sap-wood only, it will heal up, but when made deeper, it never will, and all the adjacent parts will die and often decay.

Now, in proof of this, let any farmer examine two maples that have been tapped for a dozen or more years—one with a bit and the other with an axe or gouge—the cuts by the latter not made beyond the sap flowing wood. The inner wood of the former and much of the surface will be found dead, while the other, where it has sufficient time for healing, will be found to have formed a perfect gnarl, so tough and sound that it will be next to impossible to split a log of it stove wood length. Another proof of this may be made by noting the difference in the decrease of maples in different sugar orchards where the two modes have been practiced.

Trees tapped receiving the least injury are most profitable for the reason that the greater portion of sap flows from the wood near the bark. When a tree is tapped with a bit, the spile stops up the best flowing grains. When an incision is made with a larger auger or gouge more grains are opened, and of course a greater flow of sap obtained. It is a fact, however, that when trees are tapped in this way the wind dries up the wood sooner than when a bit is used, but this is easily prevented by frequent freshing over. Many farmers have, within a few years past, used sheet iron spiles and a large auger, and have found them profitable and less injurious to the tree than any other kind.

The spouts are made by cutting sheet-iron strips two inches wide and ten or twelve inches long, bent hollow, and one end ground sharp. An auger one and one-fourth inches in size is used for tapping, the hole not being bored over three-eighths of an inch deep, and the spile driven into the bark beneath the cut with a square-faced mallet. When freshing over, an augur is used each time one-eighth of an inch larger than the one before it, and the incision made but a shaving deeper. The spile will not have to be removed to do this. If a farmer has not on hand the different sized augers, and does not wish to go to the expense of purchasing them, a two inch gouge may be made to answer every purpose. It should be ground thin and very sharp, and the cut made with it about two inches long and not over one-half an inch deep. The gouge may be taken along when gathering sap, and any tree requiring it freshed in half a minute's time by taking off a thin shaving. There are other advantages in this mode of tapping aside from the preservation of the trees; more sugar can be made, for a greater flow of sap can be obtained, and no loss sustained by leakage, as around the common wood spile.—*Ohio Farmer.*

General Hints.

—There is nothing gained by feeding your laying hens as though you were fattening them for market. Especially will this remark apply while they are running out. This thing of over-eating is hurtful to anything that eats. It is natural for a fowl to be on the lookout the most of her time, and swallow a grain at a time as it is found, and thrive best living in this manner. Feed fowls a little at a time, and often. Grown fowls should not be fed less than three times per day. I find if I over-feed fowls, they go off in some corner and sit down and chill, if the weather is cold; whereas, had I given them half as much, they would continue moving round, feeling well, and seemingly getting that exercise that their nature requires, by keeping their blood in healthy circulation. By this means the hens are better off, and a great per centage of eggs saved.

—The refuse charcoal obtained from the rectifiers of spirits, from the railroads where wood is burned in locomotives, from old charcoal beds, etc., is a very useful material in the garden. As a mulching about fruit trees I consider it very valuable. It keeps out frost in winter; it keeps the soil loose and moist in summer, and it does not afford a harbor for mice or insects. In the soil it assists to promote moisture in a dry season; and by its slow decay (for it does decay more rapidly than is generally supposed) it yields carbonic acid gas to plants, and greatly assists in the decomposition of vegetable and mineral matter. It is an excellent mulching for strawberries, in winter or summer.

—Every barn should have a cistern for the use of cattle in winter. A cistern is generally cheaper and better than a well, and as the distance to raise the water is so much less than from a well, a vast amount of labor is thus saved in pumping up the water. A cistern 10 feet in diameter and 9 feet deep will hold 168 barrels. This is a very good size to make barn cisterns. If you want more capacity, make two. A cistern 5 feet in diameter will hold 5 3/8 barrels to each foot in depth; and 7 feet in diameter, 9½ barrels per foot; 8 feet, nearly 12 barrels; 9 feet, 13 7/8 barrels; 10 feet, 14 2/3 barrels; per foot.

—No grindstone should be exposed to the weather, as it not only injures the wood work, but the sun's rays harden the stone so much as, in time, to render it useless. Neither should it run in water, as the part remaining in the water softens so much that it wears away faster than the other side; and many a "soft place" in a stone has arisen from this cause alone, and not from any inequality in the grit.

—It is economy to keep horses sharp shod. They not only do more work, but require less food. If sharp, a horse works easy and fearless. If smooth, he endangers himself and rider or driver, and works in fear and with great exertion of muscle. Consequently, he needs more food to supply the waste. It is not good economy to keep a smooth-shod horse in icy weather. By changing the nails of the shoes every week they can be kept "rough-shod" without steel corks.

—It has frequently been claimed by English writers, that thorough farming is a sure destroyer of insects. When the average produce of wheat in England was only two and a half quarters per acre, it is said that the ravages of the insects were far more general and destructive than they have been since the average has risen to four and a half quarters per acre.

—A correspondent of the *Mark Lane Express*, who highly extols the cabbage for feeding milch cows, store cattle, sheep and swine, and more especially for spring feeding of lambing ewes, says that the average product per acre in England may be stated at twenty-five tons.

—Some thirty years ago there appeared a statement in Gov. Hill's Montly *Visitor*, that worms in the head of sheep could be cured by simply taking whale oil, and with a feather put up the nostrils two or three times. It should be done in the spring, or whenever the symptoms of the disease make their appearance. It is said by those who have tried it to be a sure remedy.

—We would urge upon every farmer the importance of keeping a correct account of all he does—not only in his dealings with the mechanic, merchant and others, but with himself and farm. Keep an account of your hired help—the expenses of each kind of crop raised—the product—in fact of all expenditures and receipts in farm and household operations. You can then at the close of the year, tell which crop has paid best, and what per cent. you are receiving for the capital invested.

—A good wagon jack may be made of boards two or more feet long. Place the board in front of the wheel, one end on the ground and the other just under one of the spokes, close up to the felloe; then take hold of the spoke on the opposite side of the wheel, and lift it, at the same time placing the second board under the axle. In this way a loaded wagon may be lifted with ease.

—One of our most prominent orchardists tells us that in one of his orchards where sheep ran during the season, the apple crop was almost entirely unaffected by the codling moss. Next season his entire orchard will be pastured with sheep. This is an item worth remembering.

—Apply the albumen or white of an egg to the saddle and give it plenty of elbow grease, with the aid of a piece of flannel. The same application to a new saddle, two or three times repeated, will produce that rich dark brown so much desired.

—Twelve quarts of soot in a hogshead of water, will make a powerful liquid manure, which will improve the growth of flowers, garden vegetables, or root crops. In either a liquid or solid state it makes an excellent top dressing for grass and other cereal crops.

—A gun will not need cleaning for five years, if the muzzle is tightly corked, and a piece of rubber kept upon the tube under the hammer, when standing idle.

—Camphor dissolved in spirits, is an effectual agent, and may be used at all times, even in very cold weather without the least injury to the cattle.

A WASHINGTON letter to the Providence *Journal* says: There is a strong feeling against Judge Woodward for his revolutionary speech in the House. One of his colleagues asked him privately why he took the oath and drew his pay, if he regarded Congress as an unconstitutional body. He replied that he thought it had power to legislate, but that it cannot impeach and remove the President with one-third of the States unrepresented. A member wittily remarked: "The Judge thinks Congress is sufficiently constitutional to vote him his salary, but not to impeach and remove a President."

A Few Words to the Ladies.

Many ladies, particularly mothers nursing, complain of a tired, listless feeling, or complete exhaustion, on arising in the morning. On the wife and mother devolves the responsibility of regulating the duties of the household. Her cares are numerous, and the mental as well as physical powers are frequently called into requisition. She often finds her slightest occupation a weary task and existence a burden, while at the same time she has no particular disease. HOSTETTER'S STOMACH BITTERS, if resorted to at this period, will prove an unfailing remedy for this annoying lassitude. The effects of this potent agent are soon seen in the rosy cheek and elastic step of the head of the family, as with restored health and renewed spirits she takes her accustomed place in the family circle. If this friend in need be regularly used, those depressing symptoms will never be complained of, and not only would lassitude not be experienced, but many diseases following its advent be avoided. As a MEDICAL AGENT it has no equal, while its pleasing flavor and healthful effects have made it a general favorite. It is free from all properties calculated to impair the system, and its operations are at once mild, soothing, and efficient. All who have used the Bitters attest its virtues and commend it to use.

Chronic Diseases.

The functions of the human body give way, usually one at a time. A disordered liver, or a slight irritation of the bronchial tubes, an obstruction in the skin or of the renal organs, are sure to be followed by pains and aches in various parts, according to the extent of the organic or functional injury. A man afflicted with dyspepsia will soon find more than the stomach at fault. The food that he swallows fails to renew the natural wear and waste, the worn out matter is deposited in some nook or cranney, where it causes irritation or pain, when it ought to be thrown off and carried out of the system. Hundreds and thousands of just such sufferers have been relieved and restored to health and vigor by a few bottles of DR. KEYSER'S BLOOD SEARCHER, which not only imparts tone to the stomach and digestive organs, but likewise enriches the blood with the elementary principles needful to the restoration of the vital energy of the system. Be careful when you ask for it to get DR. KEYSER'S, for that is the kind, and the only kind, that has cured the numberless cases of disordered and broken constitutions. It was that which cured Mr. Boyd. It was that which cured John Titzell. It was that which cured Margaret McFarland. It was Dr. Keyser's Blood Searcher which cured all the old chronic cases which we have published from time to time in these columns. Dr. Keyser's Blood Searcher has cured more cases of chronic diseases than any medicine of recent origin. Sold by the gross, dozen, or single bottle, at the Doctor's great medicine store, No. 140 WOOD STREET.

1786. PROSPECTUS. 1868.

THE PITTSBURGH GAZETTE

The largest daily paper in the State of Pennsylvania, enters the 82nd year of its existence with increased facilities for disseminating the current news of the day, and for rendering good political service in the important Presidential Canvass of 1868. The forthcoming session of Congress promises to prove one of the most important held since the formation of the Government, and the proceedings will be anxiously watched by the intelligent masses. In view of the deep interest centered in the proceedings, the proprietors of the GAZETTE have made arrangements for daily dispatches and letters during the session, from a highly intelligent correspondent, who enjoys the confidence and friendship of the leading members of the Senate and House, the heads of the various Departments, and the leading politicians who frequent Washington, so that readers can depend on receiving the first, fullest and most reliable intelligence from the seat of Government.

The proceedings of the State Legislature, at its forthcoming session, will also prove interesting, inasmuch as many questions of importance will come up for legislation. The GAZETTE will keep at the State Capital, during the entire session, an intelligent and faithful correspondent, who will promptly report the proceedings by mail and telegraph.

It is the only political journal of Pittsburgh which faithfully reflects and steadily advocates the principles held by the Union Republican Party, and interpreted by a loyal Congress.

It gives as much reading matter as any paper sold at twelve dollars per annum, while its price is but eight, being the cheapest as well as the largest newspaper in the Commonwealth.

With the enlargement, every department has been strengthened. The high character of its editorial columns will be maintained, and all questions of public importance will be fearlessly discussed.

The news department will be kept up to the requirements of the day, and in condensed items will faithfully mirror all the transactions worthy of note of the City, State, Country and world at large, and maintain for the GAZETTE the reputation of a live, enterprising and first class family and commercial newspaper.

Ample space has been reserved for market reports, which can at all times be relied upon as correct, as the current quotations for manufactures, farm products, cattle, &c., &c., are daily gathered from actual sales, by faithful and efficient reporters.

The river news is collected with care, and will prove a very interesting feature of the GAZETTE.

The financial news department has been placed in charge of an able and experienced banker, who will render it quite an attractive and useful specialty to bankers, brokers and business men generally.

The religious department will receive the attention due its importance, and will be so conducted as to be pleasing and readable to members of all religious denominations.

The agricultural, art, science, literary, personal and other departments of the paper will be conducted in a manner which will prove satisfactory to the reader.

TERMS OF THE DAILY GAZETTE.

Three Months	$2.00.
Six Months	4.00.
One Year	8.00.

Delivered in Pittsburgh, Allegheny and all the adjacent Boroughs for 15 cents per week, payable to Carriers.

THE WEEKLY GAZETTE.

The WEEKLY GAZETTE has been enlarged to the same size as the Daily, and is now the largest, cheapest and best weekly family newspaper in the State. It should be in the house of every farmer, mechanic and business man. It gives each week forty solid columns of current news by telegraph and mail, the leading editorials of the daily, and a choice selection of literary and scientific items, together with everything important pertaining to the world of politics. Its agricultural columns will be edited in such a manner as to find favor with the farmer and gardener. The market reports of the WEEKLY GAZETTE are by common consent acknowledged to be the standard authority for both buyers and sellers, and in commercial circles in Western Pennsylvania, Eastern Ohio and Western Virginia are without equal. The files of the GAZETTE are used exclusively by the Civil Courts of Allegheny county, as reference in important issues, to determine the ruling prices in the markets at the time of the business transaction in dispute.

Our Agents will favor us by getting up their clubs at once, and not allowing their present ones to expire, as we are anxious that none of our readers should be deprived of a week's news. Additions to clubs can be made at any time, at yearly rates. Postmasters and Merchants are requested to act as Agents.

TERMS FOR THE WEEKLY GAZETTE.

Single Subscriber	$1.50.
Clubs of Five	1.25.
Clubs of Ten	1.15.

J. B. HARRIS'

SAFETY FIRE JACKET,

Car Heater and Moderator,

For SMOKE AND HOT AIR FLUES, dispensing with the use of stoves and fires in or about the Passenger or Baggage Cars, with the attachment to graduate the heat to any temperature that may be desired without the possibility of firing the car or cars to which the Jacket may be attached.

Having obtained of the United States Letters Patent for a Safety Jacket which is warranted to resist the most intense heat that may be applied to it in the position and purpose for which it is intended. It is a sure protection from accidents by fire, originating from defective flues, or where iron pipes are used as conductors for smoke or heat. It is applicable to all piping that may become overheated, and is warranted to give perfect satisfaction where wood or other combustible material may be placed in close proximity thereto. I am now ready to apply my invention to stoves, dwellings, factories, ships, steamboats, railroad cars, &c., wherever pipes as conductors, are made dangerous by being overheated, and security desired. I will sell, on application, rights to manufacture, or to use the above invention; also, territorial rights, to such as may wish to engage in selling privileges, either by State or county.

ORDINANCE creating the Office of CHIEF ENGINEER OF THE FIRE DEPARTMENT, defining his duties and regulating the complement of men in charge of Hose Department.

SECTION 1. *Be it ordained and enacted by the Select and Common Councils of the City of Allegheny, and it is hereby enacted by the authority of the same,* That the office of Chief Engineer of the Fire Department be and it is hereby established, and that as soon as may be convenient after the passage of this ordinance, the Select and Common Councils shall, by their joint vote, elect one person to fill said office for the present year, and annually thereafter, shall at the usual time and in the usual manner, elect one person to serve as said officer for one year, or until his successor be duly elected and qualified, if he shall so long behave himself well.

SEC. 2. Before entering upon the duties of his office, the said Chief Engineer shall give bond in the sum of $1,000, for the faithful performance of his duty, and shall also take and subscribe to an oath or affirmation, before a proper officer, that for the term for which he was elected he will perform faithfully, and to the best of his ability, the duties of the office of Chief Engineer of the Fire Department.

SEC. 3. The said Chief Engineer shall be required to devote his entire time to the interests of the Department, and for his services he shall receive the sum of $800 per annum, to be paid in a manner as other city officers are now paid.

SEC. 4. It shall be his duty whenever a fire shall break out, to repair immediately to the same, and cause the engines and other fire apparatus to be located in the most advantageous situations, and shall direct the operations of the various companies through their foremen or other officers in charge.

He shall, at all fires, be invested with police power, and shall have sole command over all other officers, all members of the Department and all other persons who may be present thereat.

He shall keep a record of all fires occurring in the city, the losses occasioned thereby, the amount of insurance on buildings destroyed or injured, and of accidents by fire with the nature of the injuries received, and circumstances connected therewith, and report the same annually to the Committee on Engines.

It shall be his duty to examine into the condition of the engines and all other fire apparatus, and of the engine houses belonging to the city, used for the purposes of the Fire Department and the companies attached, as often as circumstances may render it expedient, or whenever directed so to do by the City Councils or the Committee on Fire Engines and Hose; and whenever any of the buildings or apparatus require any alterations, additions or repairs, he shall report the same to said Committee; and in case of any repairs or alterations being made to any of the buildings, or the erection of any new buildings to be used for the purposes of the Fire Department, he shall superintend the work.

It shall be his duty to purchase all necessary supplies, bills for which he shall render to the Controller duly certified, and to see that they are neither wasted, destroyed or carried away.

He shall cause the foreman of each company to keep fair and exact rolls of their respective companies, specifying the time of admission, discharge and age of each member, which he will report in writing to said Committee on Engines. In addition to the duties herein mentioned, he shall perform such other duties as may be devolved upon him by the Committee on Engines.

SEC. 5. A GREAT FAMILY CONVENIENCE.

A new and novel arrangement for having

HOT WATER BOILERS

attached to the back end of common cook stoves, so that the waste heat which goes up the stove-pipe heats all the water needed in an ordinary sized family, by passing the blaze direct through the boiler, which sits over the pipe hole of the stove. This new arrangement can be put on to any No. 7, 8 or 9 common Cooking Stove, of any manufacture. Any person having a Tulumph, Iron City, Black Oak, Beauty or Union Stove, or almost any other Cook Stove made in the Union, can have Boilers attached to their Stoves, including the Attachment, the Boiler and Lids, and Sibb Cock, for the moderate cost of SEVEN DOLLARS, by applying to

The Pittsburgh Gazette

AN INCAN(CAN)TATION SCENE,

WHICH IS SLIGHTLY ALTERED,
—FROM—
MACBETH.

SCENE FIRST.

A Blasted Dull Season—Jersey Lightning and Stage Thunder.

[Enter Three Managers.]
1st Man.—How long shall we three get more tin?
What's the dodge that's sure to win?
2d Man.—Some sensation must be done—
Something that will have a run.
3d Man.—Let's foul the stage with women
With all the clothes off that we dare.
[Managers vanish.]

SCENE SECOND.

Clear Stage—Flats in the Distance.

[Enter three Managers.]
1st Man.—Where hast thou been, brother?
2d Man.—Catching Fawns.
3d Man.—Brother, where thou?
1st Man.—The public all had greenbacks in their hands,
And paid, and paid, and paid.
Give me, quoth I,
Sensations, man, for greenbacks, they all said.
So now a spectacle shall court the gale,
And shortened skirts shall be th' attractive sail.
And as the brokers do in copper stocks,
When comes the rise that brings in the rocks,
I'll sell, I'll sell, I'll sell.
2d Man.—I'll give thee a scene.
1st Man.—Thou art keen.
3d Man.—And I another.
1st Man.—Good! I myself will get up others;
And the very views they show,—
Mountains, valleys, ice and snow,
Trees, and rock, and waterfall,
Knightly castle, palace hall,
Disguised by scenic painter's brush,
With blazing tinsel bright shall blush.
And the public it shall seek
To see them all eight times a week.
If it wants the blaze and glare,
It shall have the largest share.
Look what I have!
2d Man.—Show me, show me.
1st Man.—Here I have a critic's eye,
That no free tickets e'er could buy.
3d Man.—Dry up, keep shy,
Legitimate drama's coming by
[Enter Legitimate Drama and Genteel Comedy.]
L. D.—So dull a season I've not known.
G. C.—What are those, so seedy in their attire,
That look not like stage managers,
And yet are on it? Is business good,
Or are the houses shy?
You seem to understand me,
By each at once his knowing finger laying
Beside his bulbous nose.
L. D.—Speak, if you can. What prospects?
1st Man.—Alas! for thee, legitimate,—quite weakly.
2d Man.—Alas! for thee legitimate,—declining.
3d Man.—Alas! for thee, legitimate, quite played out.
G. C.—What, shall the legitimates have cause to fear?
In the name of common sense,
Why do you start?
Is it a new thing in dramatic art?
Speak, and I'll hear,—perhaps will strike thee after,—
My business is in making hits and causing laughter.
1st Man.—Bully!
2d Man.—Bully for you!!
3d Man.—Stick!!!
1st Man.—Lighter than legitimate, but weightier.
2d Man.—Not so brilliant, but more sparkling.
3d Man.—Thou shalt want houses, but draw none.
1st Man.—Legitimate and Comedy step out quick certain—vanish.
Comedy.—Whither will they go?
L. D.—To some snug parlor in a good hotel,
Where to concoct a spectacle of—well,
A red fire piece of gauze and glitter sham,
A senseless show and plot not worth a dram—
Artists' competition,—yet 'twill cram.
The theatre nightly to repletion.

SCENE THIRD.

A Pit (or a Parquette, just as you like)—In the Centre a Boiling Cauldron—Flash of Calcium Lights and "Thunders of Applause."

[Enter three Managers.]
1st Man.—Thrice the public failed to come
To local dramas badly done.
2d Man.—Thrice the gallery have "gone back"
3d Man.—Thrice Horse Opera and French Spy
Have I played to houses shy.
All.—Now, as sure as "eggs is eggs,"
Something's wanted new in legs.
1st Man.—Round about the stage we go,
In the big sensations throw
Glare and Glitter—that alone
Is sure to have a healthy run.
Paint and gold in every spot,
Boil thou first i' the charmed pot
Double, double, prices double,
Stick the public for our trouble.
2d Man.—Dancers lithe as any stake,
In the Cancan whirl and shake;
Painted faces, bosom bare,
Well chalked shoulders, eyes that stare,
Naked limbs and well-turned arms,
Shortened skirts to show their charms,—
Round the stage with toil and trouble
Let the ballet boil and bubble.
3d Man.—Silks and satins, velvets, laces,
Eyes that languish, showy faces,
Pads and powder, tights and curls,
Banners, music, crowds of girls,
Nymphs and naiads, elves and fays,
Flocks of fools to throw boquets,
Trash and Nonsense for a plot
Throw in the dramatic pot.
All.—Double, double, prices double,
Red fire burn and cauldron bubble.
1st Man.—Warm it up with printers' ink,
Ask the critics out to drink;
Oyster supper and cigars
For lively puffs of dancers' pas;
Champagne served out liberally,
Introductions to the ballet;
A few free tickets scattered round
Will make the charm up strong and sound.
2d Man.—By my ears so loudly humming,
Something good is this way coming.
Open gates,
Whoever waits.
[Enter Legitimate Drama.]
L. D.—How now, ye cool and calculating crew,
What is't ye do?
All.—A spectacle for fame.
L. D.—I conjure you by all your past offences,
Before you throw down modesty's defences,
Answer me straight,—I'd know the consequences.
1st Man.—Say if of us to know you seek,
Or will you have the future speak?
L. D.—Call up the future,—you can that consult,—
Show me the future and the grand result.
All.—Show honest eyes, grieve honest hearts,
Speak of new theatric parts.
[*Storm of Hisses—Dead Head rises with an order in his hand.*]
Managers.—Hear his complaint, but
Promise no free pass.
Dead Head.—Beware! Beware!
The drama's gone, alas!
The cup of lust is drained most to the dregs.
The public eye is nearly tired of legs.
Beware, theatric giga-dismiss me, I have had enough
Blue fire, French dancing—all that kind of stuff.
L. D.—Whoe'r thou art,
For thy advice so plain,
I volunteer
A bottle of champagne.
[*Exit D. H., amid a shower of crackers.*]
2d Man.—Forbid it, Jersey! Shade of all free lunches,
List to this ghost,
Then call for whisky punches,
(More potent than the first.)
Ghost of a woman rises disguised in a dress reaching to her feet.
Ghost.—Legitimate Drama, list to me.
L. D.—Had I three ears I'd give them all to thee.
Ghost.—Then stand you firm and mind your ancient duties,
Nor heed the squirm of half-clad ballet beauties;
Thy life is sure, for in thy moments calmer,
The public taste will still uphold the drama,
Till Boston pride is hid beneath a pall,—
Till honest men fill Gotham's City Hall,—
Till great Chicago thinks it sin to boast,—
Till Cincinnati saves her pigs to roast,—
When San Francisco moves "down east" for sport,
And Portland's natural seaport is forgot,—
When you can eat pea-porridge with a fork,
When G. F. Train shall rather think than talk,—
When all these things so strange shall come about,
Then may dramatic taste, perhaps, die out.
D.—That will never be,
But more I'll see.
All.—Seek to know no more,
Or brisk burlesque will be a heavy bore.
D.—Yes, yes, another, yet another line,—
I know the causes of my own decline
All.—Ring the traps up from the cellar,—
Show him what the public swallow.
[*A show of eight "popular pieces."*]
D.—Thou art the offspring of another nation,
And from the French a very free translation,—
Another! Concert Hall and Bar displays
The potent *spirit* of our local plays,—
The third shows dreadful leaps in rocky dells,
And all the wrongs of Ireland tells,—
A fourth appears who holds a glass,
To show me what will come to pass.—
Another glass shows many women fair,—
It is another spectacle to make a pair.
And still they come, these dreadful sights,
All bound to run at least a hundred nights.
All.—Aye, this is true, and thus we show our hands,
And play whatever public taste demands.
"Everybody last scene"—now the prompters call,
Ring down the curtain,—picture,—exit all.
[*Managers and Drama and Comedy step across the street to see a man.*]
—*Boston Bulletin "Spice."*

SHAD IN THE SUSQUEHANNA.—Col. James Worrall, Commissioner under the act of March 30, 1866, relating to the passage of fish in the Susquehanna and its tributaries, has made his report, in which he says that the passage for fish constructed in the Columbia dam is a perfect success. Shad have since been caught of the very finest quality, and in respectable numbers, as high above the Columbia dam as Newport, on the Juniata. The numbers actually taken between Columbia and the Juniata, ranged from ten to eighteen thousand. None of the companies have complied with the act except the Susquehanna coal company, who have constructed a satisfactory weir, which affords an easy passage to the fish. Suits have been brought in the Dauphin county court, against the Pennsylvania railroad company, and other corporations owning dams, to test the constitutionality of the act, and it is supposed the question would soon be settled.—*Franklin Repository.*

PRICE ADVANCED.

PAR AND INTEREST.
THE
Central Pacific Railroad

The best and principal portion of the

NATIONAL TRUNK LINE ACROSS THE CONTINENT,

is being rapidly carried forward by an unprecedented working force; and it is reasonably certain that the CONTINUOUS OVERLAND RAILROAD CONNECTION FROM NEW YORK TO SAN FRANCISCO WILL BE MADE IN 1870.

The United States Government furnishes, upon a subordinate and contingent lien, half the means for constructing the Main Stem Line; and besides an absolute grant of 12,800 acres of valuable public lands per mile, the Central Pacific Railroad Company have received from California sources, donations and concessions worth more than $2,000,000. The available resources of this Company are therefore abundant for the purpose, amounting to $77,000,000 on the first 726 miles of the Line, including Loans secured by a First Mortgage upon the whole property, to the same amount only as the U. S. Subsidy Bonds.

The results already attained, although under comparatively unfavorable circumstances, afford substantial ground for believing the CENTRAL PACIFIC to be the

Most Favored, Productive and Valuable Railroad Enterprise in the Country.

In consequence of the large and rapidly increasing demand, the price of these Bonds has been advanced, and the Company are now offering for sale a limited amount of their

First Mortgage Six Per Cent. Bonds,

Principal and interest payable IN GOLD COIN, in sums of $1,000 each, at par and accrued interest from January 1st, in currency.

These Bonds, it is believed, possess the elements of safety, reliability and profit, in a greater degree, than any other class of Corporate Securities now offered, and are therefore very desirable for steady investments of surplus capital. Investors will bear in mind the following advantages:

I. They are the first mortgage on one of the most valuable and productive lines of railroad in the world.

II. The actual earnings from local business in 1867 were more than four times the annual interest engagements.

III. The hard part of the road is now done, and the prospects of rapid completion are favorable.

IV. The Company have liberal subsidies, which enable them to prosecute the work with great vigor.

V. The management has been exceedingly prudent and frugal.

VI. There is already a large and growing settlement on the completed and graded line.

VII. The lands promise to be of immense value, 37,088 acres having been already sold

VIII. Both principal and interest are explicitly made payable in gold coin.

IX. Both the aggregate amount of issue and their standing in Europe will insure for them continued activity and a high rank among standard securities.

At this time they yield nearly

Nine per cent. upon the Investment.

Holders of Government Securities have an opportunity of exchanging them for Central Pacific Bonds, bearing an equal rate of interest with the principal abundantly secured, and of realizing a profit of ten to fifteen per cent. in addition.

Orders sent with the funds through responsible Banks or Express Companies will receive prompt attention. Bonds sent by return Express, to any address in the United States, at our cost. Information, Descriptive Pamphlets, Maps, &c., furnished on application at the office of the Railroad Company,

FARM AT PUBLIC SALE.—The undersigned will expose to Public Sale,

THURSDAY, MARCH 5TH,

A well improved Farm, situated at Huston's Station, P. R. R., two miles west of New Florence, Westmoreland county, Pa., containing 263 acres of good land, suitable for grazing, farming or the cultivation of grapes. The whole tract is well watered by never failing springs, and a well of never failing water in the barn yard. The land is all underlaid with a vein of coal, ranging from 6 to 8 feet. The improvements are a good frame house, containing nine rooms; a good frame bank barn, 40 by 60 feet; good tenant house; three apple orchards of good fruit, together with a variety of pear, peach and cherry trees. The land will be sold either in whole or lots, to suit purchasers. Sale to commence at 1 o'clock P. M., when terms will be made known.

THE COURTS.

District Court—Judge Williams.

MONDAY, March 2d.—Court met at the usual hour.

J. Grosvenor Davis vs. J. F. Sabita. Action to recover the amount of a judgment note for $190. The note was given in 1865, in part payment for a lot of land in East Liberty. It is alleged by the defense that the land was bought on the representations of a plan which showed streets running through the plat. It appeared subsequently that no streets had been laid out there, and payment of the note was accordingly refused. On trial.

Quarter Sessions—March Term.

The March Term of the Court of Quarter Sessions commenced yesterday at ten o'clock, Judge Mellon on the bench. The Grand Jury were called and sworn, with James McAuley, Esq., as foreman, and His Honor proceeded to deliver the customary charge.

He called attention to the delay and difficulty arising from the neglect of committing magistrates to make their returns in time according to law. Returns should be made ten days before the first day of the term, when complaint had been made before that time; and in all informations, whether returned in time or not, no witness costs should be taxed unless the witness includes it in his bill and probate for the time he attends in court, or where he is not required to attend court he may file a probate with the Clerk for the time of his attendance before the magistrate. It frequently happens that the costs for witnesses, or the costs generally, are endorsed on the back of the return in lump. The Clerk will not tax such, but only tax the costs properly itemized, and according to the fee bill. The magistrate will endorse the items of his own and the constable's costs, and the names and time of the witnesses examined, and the witnesses will be entitled to receive their costs by making probate and having them separately taxed in Court. This course has been necessary to prevent abuses which have come under our observation.

Another matter, said the Court, had been suggested. It is said the city is flooded with obscene books and pictures; that they are exposed to sale in some of the shops, and hawked about by pedlers. If evidence in regard to this comes before you, some proper action should be taken in the premises, as it is easy to see the mischief likely to result to foolish and weak-minded youth from such exhibits.

In regard to our County Prison, His Honor said that its crowded condition was inhuman to the inmates. The nature of the place was such, from the want of fresh air and other causes, that perhaps little could be done to alleviate it. The work-house may, it is hoped, relieve the condition of the prison to some extent; but, unless by some temporary arrangement and preparation, that institution will not be ready to receive inmates for a length of time to come. In the meantime the Prison Board and those humane citizens who are endeavoring to alleviate the harships of the prisoners in the county jail can do but little.

Of the detention of prisoners in jail for fines and costs after expiration of terms of sentence, His Honor remarked: There is one difficulty, however, to the discharge of prisoners after the time of sentence has expired, which ought to be remedied, but which can only be by legislation. It is this: After the expiration of the term of sentence, when the sentence is fine and imprisonment, as it is in most cases, the prisoner has to lie in jail for three months longer for non-payment of the fine without regard to whether he has the means of payment or not. When the sentence is passed it is impossible for the Court to know or anticipate whether the prisoner will be able to pay the fine and costs or not, and, of course, the time he may have to remain after sentence of imprisonment cannot be considered. It is especially hard in cases of small misdemeanors, by poor men whose families are dependent upon them for support, and for whom there is no alternative but to remain in prison for the three months after the term of their sentence has expired. It is simply a punishment, and a very cruel one, for being poor and unable to pay. And further, no one can get out at any time, even after he has remained his additional three months, until he has given bail and gone through the troublesome and tedious proceedings under the Insolvent Laws. This is exceedingly oppressive to many, and causes them to be retained in jail for months after they might otherwise be discharged. In the cases of those who are clearly without means, as most of such men are, this is extremely harsh and oppressive. Some simple and expeditious manner of hearing and discharging prisoners after the expiration of their term of imprisonment, where they are too poor to pay fine or costs, should be recommended.

In regard to those charitable institutions which Grand Juries are in the habit of visiting, it would be well, said the Court, to notice and discover if you can the reason why many of them fall so far short of being self-sustaining. Prospecting, one would suppose that when buildings are erected and all their appliances are in order, the occupants, where they are to be engaged in useful pursuits and trades, and who are generally able bodied, ought to be able to support themselves by their labor. But this is far from being the case. There is complaint that some of these institutions are necessarily burdensome. It may be a mistake, but it would be well for the grand jury to observe if there be any extravagance in the management or mode of maintenance of any of these institutions, or if there be any neglect in procuring proper employment for the inmates, or in giving the labor its proper direction. These things would contribute to make any institution of the kind burdensome to the people, and it is proper they should be remedied.

Attention was called to the existing nuisance in the Butchers' Run district. Slaughter houses and soap boiling establishments had been instituted along Butchers Run when the neighborhood was not settled, and hence there was no cause for objecting to them. The same establishments in a thickly populated neighborhood, such as the region mentioned now is, become a nuisance. The action of the jury in the case would have to be graduated with prudence, but it was a settled fact that the interests of the individual must give way to those of the public.

At the conclusion of the charge the jury retired to their room, and there being no business before them, adjourned.

The Court received the returns of the constables of the various districts, and then adjourned until ten o'clock to-day.

OPERA HOUSE.—Miss Eliza Newton the pleasing and versatile actress, commenced an engagement at the Opera House last evening, when "The Loves of a Prince" was presented. Miss Newton is one of the best comedy and burlesque actresses we have ever heard, and we doubt not will be well appreciated here. To-night she appears in "Sir Rupert the Reckless," and as Lotty Briggs in the "Governor's wife."

ACADEMY OF MUSIC.—The celebrated Richings Opera troupe, inaugurate their season of four nights at the Academy of Music, this evening with the beautiful opera of "Martha" by Flotow. The Richings company is decidedly the best English Opera Troupe now traveling, and comprises some of the best musical talent extant. Among the names of the artists we observe those of Campbell, Castle, and Barnard, all of whom are favorites here. For Wednesday evening Wallace's "Maritana" is announced, to be followed on Thursday evening with "La Sonnambula." On Friday evening, which is the occasion of Miss Richings' benefit, the "Bohemian Girl" will be presented. Tickets at Mellor's, 81 Wood street.

MASONIC HALL.—Logrenia, the Royal Conjurer, will continue his inimitable entertainments during the present week, during which time one hundred presents will be distributed nightly. A number of new and amusing tricks and experiments will be presented, and the programme will be changed every night.

THE LECTURE of Miss Clara Barton last evening, at Masonic Hall, was largely attended. Miss Barton is a fluent and graceful talker, and made many capital hits in the course of her remarks.

The Rink.—The ice at the Rink is in excellent condition, and the skaters are making good use of it, as they should do, as the season must soon draw to a close.

Convention of School Directors—City Superintendent Question.

Pursuant to the call of the President of the Central Board of Education, the School Directors of the consolidated city of Pittsburgh met yesterday, at 12 o'clock p. m., at the Hall of the Third and Tenth Ward Public Schools, to determine whether there should be a City Superintendent.

On motion of Mr. Hunter, of the First ward, Mr. Hartman, of the Sixth ward, was called to the chair, and Mr. Sergeant, of the Eighth ward, chosen Secretary.

The Chair stated the object of the meeting to be to determine whether there should be a City Superintendent, and if so to determine a time and place for holding the election.

At the request of some member (whose name we did not learn,) the Secretary read the Act providing for City Superintendents.

After some discussion in regard to the meaning of the Act, Mr. George H. Anderson, of Peebles township, offered the following resolution:

Resolved, That the sense of this meeting is that a City Superintendent be elected, and that when we adjourn, we adjourn to meet this day week at two o'clok. P. M.

The resolution was seconded, and remarks made by several gentlemen.

Thomas Ewing, Esq., of the Second ward, said he considered this a question of great importance. Some, he said, were opposed to a City Superintendent *in toto*; some were in favor of it, if they could have *their* man elected; while others were in favor of electing such as they could now, and doing better in the future if they could. He was of the latter opinion, and thought a City Superintendent was much needed, not only to examine teachers, but to have the general supervision of public instruction, devise means to render symmetrical the grades of the different schools, and also to get the High School to work in harmony with the Ward Schools, which it was not now doing; also to devise means whereby all the children of the city might be made attend school.

Considerable miscellaneous discussion ensued on the resolution, when Mr. G. H. Anderson thought the question should be taken in two parts.

On the first part, "should a Superintendent be elected," the ayes and nays being called, resulted in forty-six ayes, ten nays.

The second part of the resolution was then taken up, and, after a great deal of discussion and amending, it passed in this form, viz.: "That when we adjourn we adjourn to meet on Thursday, at 2 o'clock P. M., April 23d, in the hall of the Third and Tenth Ward Schools."

On motion of Thos. Ewing, Esq., a committee of five was ordered to define the duties of a City Superintendent, and report at the next meeting.

The Chair appointed Thos. Ewing, J. H. Miller, G. H. Anderson, Jas. Walter and W. A. Tomlinson, as the committee.

Adjourned.

A Word in Reply.

MESSRS. EDITORS GAZETTE: The smart young man of Copperhead politics, who does up the editorials of the Sunday *Leader*, was indignant at the exposure in your columns of the apostacy of Mr. Munro from the Republican party, and flippantly says: "To introduce politics into the public schools argues either folly or rascality; so we take the GAZETTE correspondent to be either a fool or a knave."

What the aforesaid young man may take me for, is, in the language of Mr. Toots, of "no consequence." His weekly productions in the *Leader* attest his character and instincts. I shall shed no tears over the maledictions of this illustrious successor of "Dusty" perambulating editor of the "Man about Town."

It will be observed that I said nothing about introducing politics into the schools, which he falsely insinuated in the *Leader*. I called attention to the fact of Mr. Munro asking for an important office in the gift of the party he did his best on the stump and elsewhere to defeat. Every man has a right to vote for whom he pleases, but no man has a right to make a hypocrite of himself and deceive his neighbors.

There are other gentlemen eminently qualified for the position who have never wavered in their fealty to the party, and are in no way identified with that faction that has done and is still doing all they can to disorganize and destroy the Republican party in this county.

Let the faithful be rewarded and the faithless learn that there is a hereafter.

A REPUBLICAN.

A Knock Down.—Edward Scott made oath, before Justice Heisel, yesterday, charging Levi Johnson with assault and battery. The parties are colored men and reside in East Birmingham. It was alleged by the prosecutor that the defendant knocked him down. Johnson was arrested and after a conference between the parties the affair was settled, the accused paying the costs.

Disorderly.—G. W. Fullerton yesterday made oath, before Justice Heisel, charging John Salinskey with disorderly conduct. The parties reside in East Birmingham, and it is alleged by the prosecutor that the defendant came to his house and abused his wife. A warrant was issued for his arrest.

BRIEF TELEGRAMS.

—Charles T. James, one of the alleged murderers of Joseph Clark, in Worcester, Mass., on Friday, the 28th ult., was captured in Providence, Rhode Island, and taken to Worcester. Nine hundred dollars, a watch and diamond pin, Clark's property, were found in his possession. He said the affair was planned by his accomplice. The plan was to murder and rob Clark, then destroy all evidence of the murder by burning the building. It was well known that Clark usually carried a large sum of money with him, and wore valuable diamonds. He had a previous acquaintance with James, and charitably paid his bills during the few days they were waiting to murder him. The deed was done with a small broadaxe, which they carried to Clark's room in a coat. James attracted Clark's attention while Charles, the accomplice, (who has also been arrested,) stepped behind Clark, and struck him a mortal blow. Very valuable personal effects were overlooked by the murderers. Clark's mistress entered the room soon after the murderers left, discovered the fire and gave the alarm. Charles is twenty-two years of age, and below the common average of intellect. James is thirty-one years of age, has lost the sight of the left eye and has a wicked look. He is said to be the person who poisoned the celebrated trotting horse India Rubber, in Boston, about two years ago.

—Captain Fisher, Inspector of Internal Revenue of Kansas, has discovered flagrant violations of the revenue laws at Atchison and Lawrence. A distillery at Lawrence, with a capacity of two hundred gallons, showed daily returns of but fifty gallons. The returns of the concern previous to October were said to be at the Assessor's office, but on application there they could not be found. Thereupon the distillery was seized by the authorities.

—The Kansas Legislature will adjourn to-day. A large amount of business has been done, including the passage of most of the laws reported by the Codifying Commissioners.

—James J. Burke, a young man employed in the tax collector's office, at New York, killed himself by shooting, Saturday evening, in the presence of his family.

How to Make Money.

I will pay $25 to any established manufacturer of patent medicine who will open his office to the public and offer to cure at any price or remove pain within five minutes, or who will offer to have his remedy tested immediately on the spot for the removal of pain in public. I will pay $100 more if, with his or their remedy, it proves to give immediate relief to ten persons in one hundred who apply. I will pay 1,000 more if they will produce a remedy that will remove and permanently cure all pain as quick or remove inflammation as fast as Pain Paint, that contains no chloroform, opium, or any narcotic drug, is harmless, and causes no pain in its application. Some of the manufacturers of patent medicine are losing customers, in consequence of the introduction of Pain Paint. They struggle and die hard, but folks of common sense know that a remedy that never fails of removing pain can be tested in public, and in the face of the whole world, with utmost confidence, and unless such remedy be harmless and positively certain in its application and future results, it would most emphatically be its own ruin. Physicians every day are present, and if a single failure should happen it would be most damaging. All can come and prove Pain Paint, even its greatest enemies, at no expense; and if they snarl and growl because all can test it, and because everybody purchases Pain Paint, it only goes to show that their own business is declining, because a better remedy takes the place of pills and cayenne pepper or turpentine liniments. R. L. Wolcott, 170 Chatham square, New York, and 622 Arch street, Philadelphia, in the Drug Store.

—To-morrow the Ohio Republican State Convention will be held according to the call. The nominations to be made are few, and not such as to excite much interest among politicians, the candidates to be agreed upon being only for Secretary of State, Supreme Court Judge, Clerk of Supreme Court, member of the Board of Public Works. For Secretary of State there are several candidates, among whom we recollect John Russell, who now holds the office by appointment, James Williams, Clerk in the Auditor's office, Col. E. Burr, of Delaware, and General Sherwood, of Williams county. Either of these gentlemen would fill the office well. For the other offices there is no contest of any importance.

—The Springfield *Republic*, of Wednesday, contains a contradiction of its previous statement that a boy's death in that city was occasioned by the strap of his skate. He died from inflamation of the brain.

CITY ITEMS.

A Great Cure of Asthma.

I feel myself under obligations to you, as well as a duty I owe to others who have been like sufferers with myself, in order that they may know where they can get cured. I had been subject to violent, continued attacks of ASTHMA for more than six years, and had been to great expense and to various medical men of experience without obtaining any permanent relief, if relieved at all. I was so bad that I never knew what it was to be free from the disease. I had to sit up in bed every night for weeks and weeks, without any prospect or hope of cure. My condition was such that I felt life a burthen, and when I got an attack I felt in danger of suffocating every moment. So terrible had been my sufferings that my mother says that she has seen me so near suffocation that I was nearly black in the face from the desperate efforts made to get breath. In the cold winter nights, many a night, with the doors and windows of the house thrown wide open, in order to hinder the apparent danger of strangulation. In this condition, on the 13th of October, 1866, having heard of DR. KEYSER'S skill in curing this desease, I called on him, in company with my husband, Joseph Meyers, but I must confess, with a great deal of doubt as to effecting a permanent cure. Dr. KEYSER examined me carefully, and my lungs all over, with his LUNG SOUND, and told me that with care I would get well. I persevered with his medicine for over a year, and am to-day in vigorous health, and TOTALLY FREE FROM THE ASTHMA.

The Continental.

In speaking of the "Continental" we do not refer to the Continental Congress or the Continental money in use some ninety years ago, but it is to the Continental Dining Saloon on Fifth street, next door to the Postoffice, of which our friend Mr. Wm. Holtzheimer is the proprietor, that we desire to call attention. Mr. H. understands his business perfectly, as the excellent manner in which the "Continental" is "run" gives ample evidence. It is certainly a model saloon, as its patrons can fully testify. The tables of the "Continental" are always supplied with the best the market affords, of everything in the line of eatables, and the style in which dishes are served is unsurpassable. When you want anything good to eat go to Holtzheimer's, on Fifth street, next door to the Postoffice.

Jewelry, Watches, Clocks, &c.—At Reineman, Meyran & Seidle's, No. 29 Fifth street, the finest stock of jewelry, watches, clocks and general fancy goods peculiar to the business, will be found at marvellously low prices. The firm will take possession of their magnificent new building a few weeks hence, and in the meantime are anxious to dispose of their heavy stock at greatly reduced rates. We assure our readers that at no other establishment of similar first-class character can purchases be made to better advantage. Remember the place, No. 29 Fifth street.

City and country merchants will find a very large stock of staple and other seasonable Dry Goods at Barker's, at less than Eastern prices.

Weather Inconvenience.—The present weather is very likely to produce serious inconvenience to housekeepers, in the way of bursted pipes in houses, yards and on streets. To those of our friends so annoyed, we commend Mr. T. T. Ewens, practical steam and gas fitter and plumber, No. 165 Wood street. He attends to repairing or new work of every description in the very best manner, at the shortest notice and on the most reasonable terms. We commend him as a thorough and finished workman, and in every respect worthy the patronage of the community.

Our Allegheny readers are reminded that they have in that city a wholesale and retail grocery establishment, which is equal in every respect to the best on this side of the river. We refer to the well managed house of McBride & George, No. 164 Federal street, where will be found a large, complete and elegant stock of fresh teas, spices, sugars, canned fruits, syrups and groceries generally, together with seasonable fruit and produce. Their prices are very reasonable, as a purchasing visit will satisfy any one.

For 10 and 12½ Cents Per Yard.—We are offering a superior Bleached and Unbleached Muslin at these prices. Barker & Co.

Canned Fruits, pure mustards, rich spices, unadulterated syrups, fragrant coffees, fine and coarse sugars, best raisins, citrons, dried fruits and general housekeeping supplies at very reasonable prices will be found at the old established tea mart of Joseph A. Robinson, No. 20 Fifth street. The entire stock is fresh and cannot fail to afford the highest satisfaction to purchasers.

To City and Country Merchants.—Having abundantly supplied ourselves with goods before the late extreme advance in prices, we are prepared to sell at less than eastern prices, and invite an examination of our stock.

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE,
MONDAY, March 2, 1868.

Gold opened weak and at a decline of ½ per cent. on Saturday's quotations; sales were made at 141¾ at the opening, and at the close the market stood at 140⅞ to 141, and steady. The demand from importers is still very light, partly from the hope of obtaining it at lower rates, but more from a want of currency; money with that class is exceedingly scarce on account of the failure of the commission houses to meet their obligations promptly. The effect of the payment of gold interest today by the Government has been discounted, and it is predicted that quotations are not likely to touch anything below 140.

Governments are better, in sympathy with the improvement in Europe, but the demand from investors is completely checked. Owing to the backwardness and inactivity in business few bonds are coming on the market what sustains quotations more than the inquiry for bonds.

The stock market opened weak, especially Erie, and its connections which remained low, and even declined below the average price; the balance of the list recovered towards the close, but the market is rather inactive. The flurry in the Mining stocks is over, and prices are just the same as at the beginning of the year. For local stocks the inquiry is very moderate, and only at great concessions.

Some inquiry is made for Columbia oil stock at $10, and Triumph at 80c, including a dividend of 2 per cent., payable on the 15th instant.

Money is less stringent than usual at the beginning of the month.

Closing New York quotations, received by Ph. R. Mertz, are as follows:

—The New York *Tribune*, speaking of the effects of impeachment upon financial condition of the country, says:

The permanent effect of impeachment upon the general business of the country is by no means sure to be disastrous, but the reverse. The deposition of President Johnson and the accession of Vice President Wade to the Executive chair, followed as the latter would be by reconstruction in the Cabinet, would give the country a Government which would be a unit, in place of the discordant elements now controlling the country. Under the new order of things, the material interests of the people would revive, and long engagements for capital be made with the conviction that, under a Government fully controlled by the Republican party, its political and financial troubles would be soon harmonized and obliterated. The people throughout the country already take this view of the case, and feel relief that the discordant elements in the Government are to be removed, and stability and unity of purpose secured, under which alone commerce can prosper.

—The three great legal tender cases now before the United States Supreme Court are likely to attract a good deal of attention. The first suit where a party seeks to discharge a common debt by payment of legal tenders; the second is an Oregon case, where an individual is endeavoring to pay his taxes in legal tenders in face of the Oregon law that all taxes shall be paid in gold; the third, also a tax case, is from California, which State has also a law that all fiduciary taxes shall be paid in gold. Secretary McCullough asks that these cases be posted till next term, since the United States Attorney General wants more time to prepare for the important conflict.

—The Cincinnati *Commercial*, of Saturday, says: Our pork packers and local operators have, during the past ten days, been buying largely of meats delivered at country points, and a considerable amount of currency has been sent to the interior to pay for these purchases. In addition to this there is a steady demand from the South, and heavy local checking, which has caused a further decline in balances. The banks generally reported the applications for loans more liberal and the market is gradually working closer, though still comparatively easy for first class borrowers. Rates of interest range from 8 to 10 per cent., only regular depositors being able to obtain accommodations at 8 to 10 per cent. In the open market 12 per cent. is the ruling rate for first class names.

—A late New York exchange says: The recent defalcations in various banks in this city and elsewhere, give point to the very just remarks of Mr. Gallatin, in his pamphlet just issued: "The demoralization of society," he says, "goes on steadily under the blighting influence of an irredeemable legal tender paper money. Religion, virtue and honor decline. Vice becomes fashionable. Gambling prevails in the marts of trade and the financial centres, from the very necessities of the case, because the slow processes of honesty, prudence, forethought and plodding industry are impracticable in occupations subject to the licentious reign of such paper money."

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE,
MONDAY, March 2, 1868.

The market for Crude was very quiet to-day, not a single sale reported, and while the offerings are light, the demand is limited, and prices are without quotable change. There was an inquiry for spot, and we understand that 7⅝c was offered, but the offer was made under peculiar circumstances, and cannot therefore be taken as a fair criterion of the market; all the month, seller's option, can be purchased at 7¾ to 8c. The last sale for all the year, buyer's option, was at 11c, and this may be regarded as the ruling quotation for that particular delivery.

REFINED—The market for bonded oil presents no new characteristics worthy of special notice. There is still some inquiry both for present and future delivery, but buyers and sellers are apart, and, as a consequence, we have but comparatively few sales to record. Sale of 500 bbls for April at 24¾c; 500 for May at 26c; 500 for June at 25½c; 500 for March, sellers option, at 23c, and 1000 for all the year, buyer's option, at 30c. Private telegrams from Philadelphia this afternoon reported offers to buy the first half of March at 23½c, and the last half at 24c, and we are cognizant of some sales having been made, but the particulars for reasons best known to the parties interested were not made public. There was a sale of 50 bbls standard white free oil last week, to go to Cincinnati, at 35c.

New York Cattle Market.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, March 2.—Receipts—Beeves, 2,012; sheep and lambs, 21,909; hogs, 11,974; cattle—there was not a usual number of buyers to-day owing to the inclement weather; the market is only moderately active; prices very weak; sales of 4 cars at Hudson city, 18 head at Communipaw, and 1,400 head at Fortieth street; extra, 19½@20c; prime, 18½@19c; first quality, 17@18½c; fair to good, 17@17½c; ordinary, 15@16; inferior, 8@11c. The market for sheep and lambs has been moderately active and quite steady to-day; the number offered for sale was about 2,500; demand moderate and good prices fixed; sales of extras, at 8½@9c; prime, 7@7½c; common to good, 6@6½c; inferior, 5½c. Hogs quiet; no sales; common to prime, 8½@9c; the arrivals yesterday and to-day were 9 cars at Fortieth street, and 744 head at Communipaw.

New York Dry Goods Market.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, March 2.—One of the severest snow storms of the season set in yesterday and has been blowing all day with wild fury so as to block up all avenues of trade and bring it to a stand still, hence scarcely enough doing to notice any alteration in the prices. Heavy Brown sheetings of the best standard makes at 18 to 19½c. Prints 14 to 15½c, the latter for French colors, and Mous de laines at 19 to 20c. Bags scarce and bring 47½c; white Lewiston sell at 42½c.

Toledo Market.

[By Telegraph to the Pittsburgh Gazette.]

TOLEDO, March 2.—Flour—receipts 2,983 barrels quiet and nominal. Wheat dull, white Michigan held at $2,80, and Amber $2,63. Corn—receipts 7,150 bushels quiet and dull; sales at 85c. Oats dull, No. 1 held at 62c. Rye; sales at $1,51. Seeds, Timothy $2,80, Clover $7,25.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE,
THURSDAY, March 2, 1868.

The inclement condition of the weather had a tendency to retard out-door business to-day, which, at best, has been dull for some time past.

GRAIN—Winter Wheat is scarce and in good milling demand; sales of Red at $2,45@2,47. No. 1 Spring may be quoted at $2,30@2,33. Oats a shade firmer but unchanged; sales at 65@66c, on track, and 68@70c in store. Barley is scarce and in demand at $2@2,10. Rye is steady at $1,50@1,55. Corn is quiet and unchanged at 93c@$1, on wharf and track, and $1,05@1,10 for small lots.

PROVISIONS—Bacon is firm at 12c for Plain; 13¾c for Sugar Cured Shoulders; 14c for Ribbed Sides; 15@15½c for Clear, and 17½c for Sugar Cured Hams. Prime kettle Lard is still quoted at 16c, in tierces, and 16½@17c, in kegs. Mess Pork, $25,50@26.

FLOUR—The market is quiet and dull but prices are unchanged. We continue to quote at $10,50@11,25 for Spring Wheat; $12@12,50 for Winter Wheat, and $14@15 for fancy brands. Rye Flour is still quoted at $8@8,25, and Buckwheat at $4@4,50.

SEEDS—Cloverseed is selling at $8@8,50, and Timothy Seed at $2,80@3. Flaxseed is firm at $2,40.

BUTTER—Is scarce and in good demand, with sales of prime to choice Roll at 40@45c.

EGGS—Quoted at 33@35c.

DRIED FRUIT—Is in good demand and firm but unchanged; sales of Peaches at 7@8c for quarters; and 10@11c for halves, and Apples at 7@8c.

GREEN APPLES—Unchanged and in good supply; regular sales at $3 to $5 per per bbl, as to quality.

POTATOES—Continue dull but unchanged; small sales in store at $1@1,05 per bushel, and $3@3,25 per bbl.

LARD OIL—Is quoted firm at $1 for No. 2, and $1,30 for No. 1.

BEANS—Scarce and in demand; sales at $4@4,50, as to quality.

ONIONS—In demand at $4 per bushel—some holders asking $4,50.

HOMINY—Dull; sales to the trade at $5,25@6,50, and $6,75 in a retail way.

CRANBERRIES—Range from $14@18.

ALLEGHENY CATTLE MARKET.

OFFICE OF THE PITTSBURGH GAZETTE,
MONDAY, March 2, 1868.

CATTLE.

The supply of cattle, although a little larger than that of last week, was not unusually large, though it was nevertheless fully up and somewhat in excess of the demand, and the market was devoid of life or animation, there being no foreign buyers in attendance, which was owing, in part at least, to the inclement condition of the weather. It was a noticeable feature to-day that the number of stock cattle was larger than for several weeks past, and there was also a very good supply of good butchers cattle, and there were but comparatively few inferior cattle, which is something really wonderful, as this class of stock usually preponderates. We suspect that many who have been shipping inferior cattle have begun to realize the fact that it does not pay—very frequently commission men find it difficult to get much more for them than will pay cost of transportation, commission, feed bills, etc., etc., and an "account sales" showing this result, is by no means comforting to the shipper. To farmers and feeders we would say, send in your good cattle, and keep your "scalawags" at home; the former will always sell at something near their value, while the latter, especially when the market is a hard one, have almost to be given away. The following is a partial report of the sales:

E. Katz sold 14 head of "scalawags"—he dont usually have any other kind—at 4@5¼.

Johnston sold 12 head common Mercer Co., Penna., steers and heifers at 5@6¼.

Jas. McAllister was on hand again this week not having succeeded in breaking down the market by holding off. He sold 19 head for Gibson to Carr at 6 to 8½; retailed 15 for Dillon, etc., at 6¼ to 7¾, and 2 extra cows at 5½.

Emmitt sold one pair of premium Butler Co., Penna., steers, weighing 4150 lbs, to Greenwald & Kahn at 10. It is really astonishing to hear of premium cattle having been raised in Butler Co., as we thought they were capable of raising nothing but there but buckwheat and hoop-poles.

Greenwald & Kahn retailed 65 head of fair to choice Chicago cattle at 7@9.

Hazlewood & Blackstock sold 82 head of Chicago cattle at 6¼ to 9¼; 20 head of Belmont Co., Ohio, steers for Chas. Shomaker at 6¼ to 8¾; 5 head for Hamilton at 6¼@7; and 23 head of common stockers at 4½ to 5. We have nothing to say about the senior member of this firm this week; one of the juniors, however, it is reported, has committed matrimony—a very sensible thing he ever done.

Glass Lafferty & Co., had in all about 100 head on sale; sold 24 at 6½ to 9½.

L. Shamberg sold 15 head of mixed cattle at 5¾ to 8.

Myers & Needy sold 107 head of mixed cattle from Chicago at 5½ to 9¼; and 2 car loads of Ohio stock at 5 to 9.

Hedges & Taylor sold 35 head for Lucas at 7¼ to 8; 20 for Erisman at 6@8 to 7¼; and 19 for Maxwell at 5¾ to 6¾.

N. Carr—better known as "Old Nick"—sold 28 head at 6½ to 7¾.

Marks & Trausrum sold 45 head of Chicago fat cattle at 7 to 9, and 50 Chicago stockers at 6.

Peter Klemen, who is always anxious to secure the best side of either a purchase or sale, and who is not slow in "picking up" people when he gets the chance, bought one car load of good Penna. Cattle at 7,40.

Stanely & Bro. report having sold 12 head of good Penna. cattle at 7¼ to 8.

Kraus & Haas, L. Rothchilds, P. Hartman, and some others, had cattle but we did not get their sales.

Kerwin & McAllister were in the bull business as usual, but they did not make a report. Both of these gentlemen are very correct judges of this class of stock.

SHEEP.

There was a very fair supply of Sheep on sale, and while the market was reported rather dull, prices, compared with last week, have undergone no quotable change. Prime fat mutton Sheep sell readily, and that, too, at extreme prices, while common and inferior continue dull and hard to sell. We quote the following sales:

Stakely & Bro. report having sold 84 head of prime at $9 per head.

John Beecher sold 54 head of inferior to medium, from Butler county, at $3,50 to $4 per head.

E. Katz sold 104 head of good to prime Ohio Sheep, on commission, at $5 to $6,20 per cwt.

Emmell sold 40 head of extra fat Butler county Sheep, averaging 145 lbs, to Peter Tech, (butcher) at 8.

Emerick & Co, wholesaled 40 head of medium quality at $4,50 per cwt.

HOGS.

The extreme, or rather exorbitant prices now prevailing, is having a tendency to diminish the demand considerably, as butchers buy very sparingly, and the packers long since have withdrawn from the market.

Glass, Lafferty & Co. wholesaled 42 head at 8.

Hedges & Taylor had a bunch on sale, but at last accounts, they were unsold.

Rothchilds & Byers quote in a retail way at 8 to 10, gross.

Emerick & Co. quote in a retail way at 7½ to 10.

New York Produce Market.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, March 2.—Cotton opened dull and closed lower and moderately active, 2,200 bales, at 23 middling uplands. Flour—receipts, 4,867 dull; 10@15c lower, 5,800 bbls at $8,05@9,25 superfine State and western, $9,75@10,50; extra State $9,40@11,25; extra western, $12,00@14,00; white wheat extra, $[illegible]; round hoop Ohio, $10,60@12,80; extra St. Louis, $12,90@15,00; good to choice closing quiet; California dull and heavy, 850 sacks, $12,25@13,50. Receipts of oats 3,360, oats 1½c lower; 42,800 bu. 8 western in store, stocked in warehouse. Wheat, 1,245,993. Corn, 1,805,657. Oats, 1,981,854. Rye, 84,583. Barley, 40,817. Malt, 42,426. Peas, 4,624. Rice quiet. Coffee, very firm. Sugar, nominally unchanged. Molasses, in moderate demand, prices not very strong. Hops, quiet. Petroleum, 11½ @12c. crude 26c. refined bonded. Pork steady but dull, 200 barrels $24,50@24,62; new mess, closing at $24,62, regular, $23,25@23,55; old do closing at $22,25; regular, $19@20,50 for prime; $21,00@22 for prime mess; also, 500 bbls new mess sellers for April at $24,75. Beef firm; sales 255 bbls at previous prices; sales 415 tierces at $32,50@36 for prime mess; $37,50@40 for india mess. Beef hams steady; sales 190 bbls at $30@33. Cut meats firm and quiet; sales 325 pkgs at 10½@11¼c for shoulders; 15@15½c for hams. Dressed hogs firmer and quiet at 11¼@11½c for western; 12c for city. Bacon quiet and steady; sales 25 boxes short ribbed at 13c. Lard quiet and heavy; sales 530 bbls at 15¼@16⅛c. Butter firm at 30@45c for western; 45@60c for State. Cheese 11@18c. Freights to Liverpool quiet and unchanged.

LATEST—Flour closed dull and 5 to 10c lower, the decline chiefly upon medium grades. Wheat nominally lower without a strong desire to realize. Rye nominal. Oats dull and heavy at 80c for western in store. Corn dull and lower at $1,17@1,19 for new mixed western afloat; $1,18 for old mixed western in store. Pork quiet and steady at $25@24,12½ for old mess; $24,50@24 62½ for new mess, and $24,75 for April. Beef quiet and unchanged. Cut meats moderately active and firm. Bacon quiet and without decided change. Lard quiet at 16¼c for prime steam and kettle rendered.

Cincinnati Market.

[By Telegraph to the Pittsburgh Gazette.]

CINCINNATI, March 2—Flour and wheat unchanged and quiet, and not much demand for either. Corn firmer, closing at 82@83c for new. Oats firm, sales at 67c. Rye scarce, and advanced to $1,75@1,80. Barley unchanged and firm, sales at $2,50 for No. 1 fall. Cotton quiet, sales of middling at 20½@21c, but buyers do not offer better than 21c for middling. Tobacco firm, but quiet, no sales. Mess pork dull, and declined to 24@25c. A good demand for bulk meats, sales at 11@12c for shoulders and sides, and all offered at these sales were taken, holders at the close asked ¼ to ½c higher. Bacon in good demand, sales of 210 hhds. at 11¼c for shoulders, and 14@14½c for clear rib and clear sides, sugar cured hams at 17@17½c in bulk, and 18½c for loose. STOCKS.

The market opened heavy and unsettled. Erie absorbs the speculative interest. On Saturday it was whispered that the company would fail to pay its March interest on second and third mortgage bonds, amounting to about $250,000, and large short sales made this morning was confidently circulated, and the price fell to 65¼@65⅝, giving shorts of Saturday an opportunity for covering and a handsome profit. All this was going forward while the company was actually paying out its interest. The market was strong at one o'clock board, Erie selling at 66⅝@67, and New York Central at 128⅛. At second board the market was weak and dull; subsequently Erie fell to 65½ and then recovered to 66⅜. Transactions in the market were heavy throughout the day among western stocks; Missouris, ex coupons, 89¾; Northwestern shares were active; new Tennessees 61¾; at the close the market was steady.

RIVER NEWS.

The river continues to recede slowly at this point with five feet three inches in the channel last evening. The weather continues very changeable; on Sunday it was rather mild with slight showers of rain, while yesterday it snowed considerable in the forenoon, blowed up cold in the afternoon and was freezing in the evening. It would not be surprising to find it raining again to-day.

The New York, from Louisville, is the only arrival we have to note. The Kate Robinson from the same point, was due last night, and will doubtless be found in port this morning. The Lorena, from St. Louis, and the Delaware from Nashville, are amoung the first boats.

The J. N. McCullough, for Parkersburg, was the only departure for below.

Capt. D. L. Hendrickson, better known as "Old Blutcher," has command of the Armadillo, and he will load her for St. Louis, after the Maggie Hays. Capt. Swaney, her former master, takes charge of the office.

The Maggie Hays, Capt. Martin, is announced to leave for St. Louis to-day, and passengers and shippers should bear this mind. Mr. Dravo still presides in the office. The Mary Davage and barges, Captain Campbell, is also filling up steadily for St. Louis.

The St. Louis *Democrat*, of Saturday, has the following important information: The agony is over, suspense ended, in the matter of the government upper Missouri freight and passenger contract. Pittsburgh is triumphant. St. Louis enterprise is again surpassed. Mr. Vincent Yore received a telegram yesterday from Captain Jas. Brown that the contract had been awarded to Captain Hazlett, of Pittsburgh, with whom is interested Captain W. J. Kountz and Adam Jacobs, of Pittsburgh, and we believe that Captain Ben Johnson, of this city, of his city, is likewise an associate. This result was entirely unexpected here. It was supposed by many that D. H. Silver & Co. would get the contract, supposing their bid to be plainly better than that which has been accepted. For instance, the Hazlett bid to Buford was $2,07 per 100; Camp Cook, $4,17; Fort Benton, $5,50; while the Silver bids were $2,99, $5,70, and $5.95, respectively. But the proposals as a whole were of such an intricate character as to require great deliberation and care to discover which was actually the lowest. If the contractors fail to carry out their proposals, it will not be for want of boats, energy, or a lack of knowledge of the business of steamboating.

The same paper also says: Bids were opened yesterday for the transportation to Fort Leavenworth from this city, of about two thousand tons freight, including a lot of forges, and 970 wagons. The bids were as follows: By Pacific Railroad Company—wagons $10; pound freight, 34c to the town of Leavenworth, or 40c to the Fort. By Mepham & Bro., representing four steamers, wagons $9; pound freight 39c; forges $25 each. Capt. Jos. S. Nanson, for the St. Louis and Omaha packet line, of which he is president, was the successful bidder at these rates: wagons $8,94; pound freight 31c; forges $25 each. The total pounds of freight is 1,574,487. The Omaha packet line, which is looming up in fine proportions, begin operations in about ten days. The agents have already secured many thousand tons of freight for the coming season. It will come even from New York, Boston, Philadelphia and Baltimore. Liberal advertising has in this case shown good fruits.

The Vicksburg *Times* is excited about the steamer Republic: That paper of the 25th says: "She touched at the Merchants wharf boat exactly at six o'clock yesterday morning, having left New Orleans Sunday evening shortly after five. Flying light, this would be considered a very good run, but when we state that she had seven or eight hundred tons of freight on board, the performance assumes the character of something extraordinary. We have one more fact in her favor, she did this against a rising river, which all steamboatmen know is a serious drawback to a fast trip. We have been one of the last to acknowledge the justice of the Great Republic's claims to superiority, but have always said that whenever she proved herself worthy of praise we would be the first to bestow it. Had she been half-way managed, instead of plouging up and down the river, sometimes half loaded at other times over loaded, first ahead of time, then behind, never leaving as advertised, and scarcely ever making two consecutive trips between the same points, her owners would have their bones lightened of a large portion of that build up account, and the Great Republic would bear something like the reputation of the R. E. Lee. Put good steamboatmen on her, and give the boat a chance.

The Dubuque *Herald* says: On Saturday C. H. Merry returned from New Orleans. Mr. Merry is highly gratified with the success of his barge enterprise and, in that respect, does not differ materially from the people inhabiting the whole of this Upper Mississippi Valley. He will return in a few days to New Orleans to engage in the erection of a large elevator for storing grain. He has purchased 30 acres of land at Algiers, about 3 miles from, and opposite New Orleans, and will erect upon it an elevator with a storage capacity of half a million bushels of wheat. Barges will be unloaded into it, and the largest ocean sailing vessels will find good anchorage under its walls to receive their freights for Liverpool and New York markets. There is at present no elevator of the kind in New Orleans, and Mr. Merry seeing its importance to his barge enterprise has at once commenced preparations for its erection. It will thus be seen that Mr. Merry is sanguine of the continued success of his enterprise in shipping the grain of the Upper Mississippi Valley to eastern markets via New Orleans.

We extract the following items from the Sunday Cincinnati *Commercial*: Our dispatches report the sinking of the side-wheel steamer Paragon at Devil's Island, 60 miles above Cairo, on the Mississippi river, while bound from Memphis to St. Louis. The water is 2 feet deep in her cabin. She will prove a total loss. She was built at Pittsburgh in 1863 and purchased by Capt. Donnelly, who sold her to parties in St. Louis. She was worth about $30,000, and a valuable investment. The Rose Hambleton was sold at public auction yesterday for $2,000. She was knocked down to H. C. Seeriet for Henry Morton and others. Robt. W. Seymour, second clerk of the Pine Grove, when the boat left Nashville, remained there to close up the collection of her freight bills, since which time he has not been heard from. He was last seen at 3 a. m. on Sunday last at the Stacey House. It is feared he has met with foul play. The success will await the arrival of the Marietta packet Eldegaig this morning, when she will depart for St. Louis and Fort Benton. Capts. Ross and Dohrman have expended $10,000 on her outfit expressly for the Upper Missouri river trade, and now have the lightest draught steamer afloat. Capt. Lew Morris has taken charge of the office of the Evansville packet Rob Roy.

The St. Louis *Republican* says: The St. Charles has been sold to the Cincinnati and Pittsburgh Packet Company, and will be placed in the trade between Cincinnati and Pittsburgh, in connection with the steamer St. James.

MEDICAL.

A GREAT CURE OF ASTHMA.

I feel myself under obligations to you, as well as a duty I owe to others who have been like sufferers with myself, in order that they may know where they can get cured. I had been subject to violent, continued attacks of ASTHMA for more than six years, and had been to great expense and to various medical men of experience without obtaining any permanent relief, if relieved at all. I was so bad that I never knew what was to be free from the disease. I had to sit in bed every night for weeks and weeks, without any prospect or hope of cure. My condition was such that I felt life a burthen, and when I got an attack I felt in danger of suffocating every moment. So terrible had been my suffering that my mother says that she has seen me so near suffocation that I was nearly black in the face from the desperate efforts made to get breath. In the cold winter nights, many a night, with the doors and windows of the house thrown wide open, in order to hinder the apparent danger of strangulation. In this condition, on the 13th of October, 1866, having heard of DR. KEYSER'S skill in curing this disease, I called on him, in company with my husband Joseph Meyers, but I must confess, with a great deal of doubt as to effecting a permanent cure. Dr. KEYSER examined me carefully, and my lungs all over, with his LUNG SOUND, and told me that with care I would get well. I persevered with his medicines for over a year, and am to-day in vigorous health, and TOTALLY FREE FROM THE ASTHMA, and its terribly disagreeable attendants. I have had, once in awhile, a slight attack of the disease, but I regard my health as entirely re-established, and if I do have any attack, a few doses of the Doctor's medicine immediately relieves it. I cannot feel too thankful for the exemption from a disease which used to cost me whole weeks and months of loss of sleep, besides suffering which none but those who are subject to this disease can fully appreciate or describe.

NANCY MEYERS,
MARY MOUNT JOY, (her mother,)
GEORGIANA FISHER.

Birmingham, Dec. 9, 1867.

The case of Mrs. Myers, recited above, is one of more than ordinary importance, because of the violence of the attacks their continued length, and the great prostration of all the vital powers attending the disease. Any one who knew her during the time she was a sufferer from the disease of which she was cured, and will look at her now, the very picture of robust health, cannot but admit that the cure is one of more than ordinary character, inasmuch as we hear of Asthma every day of our lives, being a disease of an incurable nature. Let those who doubt investigate for themselves.

SIGHT RESTORED.

The case to which we alluded some weeks ago, of Christiana Fisher, of Beaver county, is now entirely confirmed by the appearance of Miss Fisher herself, who to-day called on DR. KEYSER in person, to thank him for his kindness and skill in restoring her to ENTIRE AND PERFECT SIGHT. Miss Fisher had been near ly blind for four months. She was so blind tha she could not distinguish any object so as to make out what it was. The case is remarkable, as hundreds of cases like her's are doomed to never-ending darkness, on the flimsy pretext that there is no cure, and nothing can be done. She was under DR. KEYSER'S treatment for two months, and before she came to him, through her brother, SIMON P. FISHER, slight hopes were entertained of her ever getting her sight. Her case is well known in the neighborhood where she resides, and has been regarded as one of extraordinary recovery.

We, the undersigned, know of the cure of Miss Fisher, and bear willing testimony to the fact above stated.

The case above referred to was entirely cured by medicines to purify the blood, and it is witnessed by scores of person who have known Miss Fisher, and have a knowledge of her total restoration to health, and the recovery of her sight, as the accompanying letter of her brother sets forth:

DR. KEYSER—This is the list of names that have to your advertisement of the cure of my sister, Christiana Fisher. They were all willing to put their names down, and were very much astonished to see that you brought her sight so soon. My mother sends her thanks to you; she says "you are one of the greatest men in the world." She says if we had not come across you she believes her child would not be living at this time. We all join in sending our love and respects to you,

S. P. FISHER, North Sewickley.

PULMONARY CONSUMPTION, RESULTING FROM PLEURISY, CURED.

Statement of George Ford, carpenter, of No 4 Sampson street, Allegheny City:

I took a violent attack of pleurisy, in May, 1866, which left me with a cough lasting all summer, wearing away my strength and gradually undermining my health. During this attack of pleurisy I had several physicians of the highest reputation in the city. After I had partially recovered from the pleurisy, I was advised to go into the country, which I did, and when there a called in a doctor, who told me my left lung was affected, and that if something were not done soon I would die of CONSUMPTION. I lingered on from this time until about the middle of June, my cough and lung disease gradually growing worse, and I weaker every day, and almost despairing of ever getting well. In this state of despondency, and knowing the general belief of the incurability of Consumption, and having heard of cures made by DR. KEYSER, and seeing his advertisement in the newspapers, I was induced in October last to call on the Doctor at his office, 120 Penn street, and had him examine my lungs with his "LUNG SOUND." He told me the upper lobe of my left lung was very much diseased, but he thought with great care and the perseverance in the use of his medicine, I would get well. At the time I called on Dr. Keyser my pulse was over one hundred and thirty beats in a minute, and I was generally prostrated, and had to cough night and day. I commenced the Doctor's treatment in October, with a feeble, broken constitution, and continued it faithfully until the present time. The Doctor's medicines helped me from the very start, and I sound gradually feel myself getting stronger, and my cough and expectoration lessening. I have gained greatly in flesh, and consider myself well; all the rattling of my lung has ceased, and my general health is in every way good. All my relatives and friends knew of the advanced stage of my disease and my extraordinary recovery. One of the medicines given me by Dr. Keyser was a medicine called LUNG CURE, which I took in connection with the other treatment.

GEORGE FORD.

PITTSBURGH, March 30, 1867.

ANOTHER CURE OF CONSUMPTION.

STATEMENT OF JOHN G. WIGMAN, OF TURTLE CREEK, ALLEGHENY COUNTY.

I was discharged from the United States army in January, 1865, on account of a wound in the head, from a shell, and a disease which the army physicians pronounced CONSUMPTION. I had a terrible cough and fell away in strength and flesh and was unable to do anything. Shortly after my return from the army, I made application to a physician of my neighborhood and, afterwards, to another in Pittsburgh of high reputation, whose remedies I used faithfully for five months, without any benefit whatever, but rather grew worse, and wasted in flesh and strength every day. In August, 1865, my mother took me to DOCTOR KEYSER, of 120 Penn street, whose skill in such cases like mine had been highly spoken of and put myself under his treatment The Doctor examined my lungs very carefully with his LUNG SOUND, and told me that my left lung was badly diseased at the upper part, but if I was careful he thought he could cure me by following his directions closely, which I did from that day to this. I gradually improved under Dr. Keyser's medicines from the first week I commenced to take them, and my general health has improved and my chest, where it was sunken away, and where it pained me, has become full and strong and free from pain. I can now do a full day's work, and take great pleasure in giving my testimony in favor of Dr. Keyser's treatment and medicines.

JOHN G. WIGMAN, Turtle Creek.
